MOST PEOPLE

Know only a comparatively few things thoroughly—all else is more or less uncertain.

Take your own case. What do you know about CARPETS, for instance? Are you competent to detect poor materials, or imperfect weaving, or unreliable colorings, or old-style patterns?

No.

Then will it not be wisdom on your part to make your purchases of CARPETS where all these points are taken care of in your interest, and where you are protected, not only from direct misrepresentation, but from the results of your own inexperience?

That seems plain enough.

Just two things we promise every customer. They are these:

That every salesman shall tell the whole truth about every piece of goods offered for sale; that anything which proves imperfect, through the appearance of any hidden defect subsequent to purchase, shall be made right.

The name of our firm stands behind these two guarantees.

Very likely you are thinking of purchasing one or more CARPETS shortly. If so, consider what we have said.

GOING OVER TO CAMPBELL.

Encouraging Words Received by the Bee.

Prairie Depot, Oct. 29.—The people here cannot refrain from saying a few words in regard to the good work done so far by the busy Bee.

It is making itself felt in this quarter politically.

Men whom we have known to be the bitterest enemies of democracy are now through the untiring efforts of this good paper hurrahing for Campbell.

J. F. Ross, a life-long republican, and rather a savage one, too, smiles as he points with pride to the Campbell badge set in the upper left hand corner of his coat. He says its a jewel.

John Gould, an old sea captain, who has, in his earlier days, plowed the stormy billows on a high protection craft, has been thrown off by the Bee.

John seems to like the change as he is now enthusiastically for Campbell. Let the good work proceed.

COULD NOT AGREE.

Providence, R. I., Oct. 29.—The jury in the supreme court which has been listening to the evidence in the suit of Abbott Run Mill company against the city of Pawtucket for $50,000 damages to its property through the breaking of the water works reservoir came into court late last night and said they were unable to agree upon a verdict. They were discharged.

IN DEFENSE OF THE JEWS.

Berlin, Oct. 29.—A pamphlet is in circulation defending the Jews against the charge of extorting money from the Russian peasants. The writer of the pamphlet says that the real enemy of the peasants is the class of rich peasants who in some way have accumulated money and who loan it at rates that Jews would be ashamed to charge.

DIED ON THE TABLE.

Detroit, Oct. 29.—Henry Anderson, 18 years old, of Comber, Ont., died on the operating table at Grace hospital yesterday while under the influence of chloroform which had been administered for the purpose of performing an operation to remove an abscess from his side. It is alleged that the chloroform was improperly administered.

STEAMER BURNED.

Montgomery, Ala., Oct. 29.—The steamer Armstrong, plying the Alabama between this city and Mobile, was destroyed by fire near Benton Tuesday night together with a heavy cargo of cotton and general freight. The passengers and crew had a narrow escape. Loss not stated.

BURNED TO DEATH.

Chicago, Oct. 29.—One man, supposed to be a negro named Charles Browning, was burned to a crisp last night at 49 Third avenue, and James Richardson, another negro, was so badly burned that he will die. The men were lighting a fire with kerosene when the can exploded. The property loss is $1,500.

DEVOURED BY FLAMES.

Southport, Ind., Oct. 29.—The Jeffersonville, Madison & Indianapolis depot, McAlpine's block, Odd Fellows' hall, and a barber shop were destroyed by fire early yesterday morning. Loss, $20,000; no insurance.

A FARMER'S VOICE

Raised in a Republican Meeting for Campbell.

He Could No Longer Follow McKinleyism.

The Fall in Wool Could Not Be Explained Away.

Foster Openly Joins the Sherman Combine.

No Matter What Results Follow Joseph Benson Foraker Must Not Be Sent to the United States Senate from the Buckeye State.

Fostoria, Oct. 29.—Senator John R. Hawley of Connecticut arrived in town at noon yesterday and was driven with many attempts at display to the Hays house.

For three weeks the republicans of Seneca county have posted and scattered the town all over with dodgers announcing a grand rally at the Andes opera house.

Much talk was indulged in and the republicans boasted that they would make one of the grandest displays ever witnessed in Fostoria.

Some 30 people, among whom could be counted but six farmers and two or three laborers, gathered in the Andes opera house, whose seating capacity is over 1,000, and it was a ludicrous sight to see the small handful huddled together in the front part of the house.

Promptly at 8 o'clock Mayor J. M. Beaver introduced Mr. Hawley.

No enthusiasm whatever was shown, and when he referred in a sneering manner to Gov. Campbell and his administration a farmer seated down in the front of the house jumped up and cried, "You can lie all you please, but I'll tell you one thing, I've always been a republican, but I'm going to vote for honest Jimmy Campbell. I can't support McKinley and his low-priced wool."

The farmer was cheered to the echo. Mr. Hawley made the usual stereotyped protection shriek, but one thing was noticeable, not one of the 1,000 glass workers employed in Fostoria was present. The following conversation was held between a correspondent and the foreman of the Fostoria Glass company explaining the absence of the glass workers from Mr. Hawley's audience:

"Why, my dear sir, there is not one of the glass workers in this city; yes, for that matter in the country, no matter what has been his political belief heretofore, that will support McKinley. It is well known what effect the McKinley tariff had upon our wages and there is not a glass worker in the state that is not working tooth and nail against McKinley.

"Why, there are men in our unions who have never voted any other than the republican ticket who will support Gov. Campbell. Oh, we have it in for this tariff business and low wages and we can vote as we please now, thank God."

Foster's Fine Hand.

Columbus, Oct. 29.—Secretary Foster had a conference here yesterday afternoon with Gen. Grosvenor, Judge Thompson, Sixth Auditor Coulter and other warm political friends of Senator Sherman. There is a general impression here that Foster is making a deal in his tour around the state whereby in case the legislature is republican and Sherman finds it impossible to succeed himself his strength is to be thrown to Foster.

It is a game of freeze out with Foraker. The latter's friends in this city are exceedingly hot under the collar at this breach of faith and there is a promise that the Foraker-Sherman war will break out again with renewed fury.

STARVING THEM TO DEATH

Orphans Have a Hard Time in Dublin.

Damaging Testimony Against Rev. Cotton.

Little Children Found Chained Up, Partly Clothed, Half Frozen and with Not Enough to Eat.

Dublin, Oct. 29.—Highly sensational and startling testimony was given at the trial of the Rev. Samuel Cotton, a rector at Carnogh, County Kildare, who was charged with criminal treatment of children in the Carnogh orphanage. The clergyman who has conducted the affairs of the institution for many years has often appealed to the people for pecuniary assistance, and has received large sums of money by subscription for the maintenance of the orphanage.

The Society for the Protection of Children recently made an examination into the manner in which the orphanage is conducted, and a horrible state of affairs was revealed. The children were ragged, emaciated and filthy.

The toes of one child had rotted off, while a little girl had been chained by the legs to a log, and an infant six weeks old was found in the orphanage kitchen, covered with rags and dying of starvation.

Other children were found in the same apartment crouched around a small fire, almost frozen and half starved. All the poor little ones were stunted in growth and were weak and sickly in health. The sanitary condition of the establishment was abominable to the last degree.

The accused clergyman was committed to trial, bail being allowed in order to enable him to attend the synod of the diocese of which he is a member.

UNDER A HIGH TARIFF.

Another Farmer Who Was Forced to the Wall.

Upper Sandusky, O., Oct. 29.—Thomas McCleary, a veteran farmer of Crawford county, has made an assignment to George W. Hull. The liabilities are estimated at $10,000, but the assets have not yet been figured. Mr. McCleary owns a farm of 240 acres but paying heavy interest for a number of years caused his ruin.

BASE BALL.

Pittsburg, Pa., Oct. 29.—First Baseman Jake B[illegible] resigned with the Pittsburg league club to-day.

THE PEOPLE NOT WITH HIM.

The Wauseon McKinley Rally a Great Disappointment.

Wauseon, Oct. 29.—The long-expected McKinley rally has come and gone. Instead of the 15,000 people expected the most liberal estimates can't make it over 3,000.

In point of fact, considering the effort that was made, it was a grand fizzle.

No money was spared and never was a town better decorated, but in point of numbers it was a failure that causes great chagrin to leading republicans.

The democrats are jubilant.

ADAMS EXPRESS ROBBERY.

New York, Oct. 29.—A meeting of the board of directors of the Adams Express company was held yesterday. The examining committee made a formal report of their investigation. The committee found the books and securities all intact, barring the discrepancies already made public. Mr. C. A. Seward was elected trustee to fill the vacancy made by Mr. Spooner's resignation.

ADDITIONAL STORM NEWS.

Madrid, Oct. 29.—Fresh inundations have occurred in Spain, and heavy rains have been pouring down since yesterday in the province of Aragon. The rivers Gallego and Giloca have overflowed, and the Ebro is still rising.

Several houses in Aguaron, province of Saragossa, have been destroyed by the floods, the occupants seeking refuge in the high lands.

THE ANDOVER CASE.

Boston, Oct. 29.—The supreme court has set aside the decree of the board of visitors in the famous Andover heresy case. This is a victory for Prof. Egbert E. Smythe and ends a struggle that has lasted five years. The board ousted Smythe from the professorship of ecclesiastical history. The case will now go back to the board of visitors for rehearing.

ACCOMPLISHED AT LAST.

Baltimore, Oct. 29.—The affairs of the Baltimore and Potomac railroad, the Washington end of the Pennsylvania system, will, it is announced, pass into the control of the Philadelphia, Wilmington and Baltimore Railroad company after this month, and commencing with November 1 all accounts will be audited in Philadelphia.

BANK WRECKERS INDICTED.

Kingston, N. Y., Oct. 29.—The grand jury returned indictments against James E. Ostrander and M. T. Trumpbour, the wreckers of the Ulster county savings institution, for converting deposits to their own use, and for perjury. There are 11 counts in the two joint indictments. The accused men pleaded not guilty.

LOST HER LIFE.

Shoals, Ind., Oct. 29.—A farm house two miles east of this city belonging to Wm. Elliott was burned late last night with all its contents. Mrs. Elliott, who is 80 years old, was crushed to death by the falling roof. Mr. Elliott was burned so badly that he is not expected to live.

RAGING FOREST FIRES.

Hundreds of People Battling with the Flames.

Miles of Woods Being Devoured by a Roaring Conflagration in the Western States.

Evansville, Ind., Oct. 29.—Forest fires along the L. E. & St. Louis and Evansville & Indianapolis are still raging and thousands of dollars' worth of property have been destroyed.

At English, Pigeon and Mackay the citizens are terror-stricken, and are making fire guards to prevent the destruction of their homes. The fires burned over the 300-acre farm of Thomas Featherstorm and destroyed everything in sight. The saw-mill of George Chapelle and 100,000 feet of quarter oak lumber was burned. For miles on the L. E. & St. Louis the woods are burning on both sides of the track, the trains are compelled to go through clouds of sparks and smoke. Nothing but heavy rains can check the destruction now going on.

Cotton Burned.

Little Rock, Oct. 29.—Forest fires are raging in Monroe county, in many instances fields having been burned and cotton pens with their contents have been consumed, involving great loss. No rain has fallen in two months, and the autumnal leaves are making a distressing conflagration. The smoke from the forest fires is almost unendurable, which, with the excess of dust, makes the atmosphere suffocating.

Timber Destroyed.

New Orleans, Oct. 29.—The Picayune's Burkville, Tex., special says: In this (Newton) county much timber is burning, destroyed by forest fires. The country is so dry from long protracted drouth that grave apprehension is felt. The smoke is so dense that a person cannot see five feet ahead.

LOVE FOR FRANCE.

Rome, Oct. 29.—At a banquet given at Milan by the Lombard Peace union in honor of ex-Deputy Passy, a member of the French Peace association, the most friendly sentiments were expressed for France. Toasts of an exceptionally kindly nature were drunk with great enthusiasm.

WATERVILLE NOTES.

Waterville, Oct. 29.—The Waterville Gas and Oil company is drilling another well for gas.

Mr. Wm. Bemis is building a fine residence on Mechanic street.

A large quantity of new corn is being bought at the Pekin mills.

Mr. Geo. Keener is happy. It's a boy.

DIGGING OUT THE DEAD.

Tunis, Oct. 29.—A newly constructed wall which had been undermined by the recent heavy rains suddenly collapsed, burying a party of 30 natives who were assembled in an adjacent house to celebrate a wedding. Several corpses have already been removed from the ruins.

TO RAISE TOBACCO.

Berlin, Oct. 29.—The Astrolabe Bay company has been incorporated in this city with a capital of $600,000. The efforts of the new company will be chiefly devoted to the cultivation of tobacco on the island of Papua, or New Guinea.

BOYER IS IN A BOX.

Pattison Will Be Asked to Bounce Him.

The Evidence is so Strong That Even Republicans Cannot Whitewash Him.

Harrisburg, P., Oct. 29.—At the session of the senate yesterday afternoon much time was taken up in discussing resolutions affecting the jurisdiction of the senate to address the governor requesting the removal of State Treasurer Boyer.

Soon after the senate had convened the attorney general informed counsel for the accused and a number of senators that while he would be willing to sum up the evidence elicited for the information of the senate he would by no means participate in the argument on the jurisdiction of the senate.

His determination to leave the discussion on this matter to the counsel for Boyer was reiterated, but notwithstanding an order was fixed giving him a place in the argument.

Senator Gobin and Penrose (republicans) expressed regret at the attorney general's decision. The majority refused to commit the senate to an order to have the jurisdiction of the senate first argued, as proposed by Senator Green, but the argument was begun on this line with the understanding that it could be abandoned if deemed proper by the senate.

LEAPED TO DEATH.

A Banker Commits Suicide and Causes a Run on the Bank.

Farenza, Italy, Oct. 29.—A great sensation was caused here yesterday morning by the suicide of Signor Giuseppe Salomini, one of the best known bankers in the city. He was about 55 years of age and supposed to be very wealthy. As the deceased was one of the directors of the People's bank his suicide has given rise to alarm among the people that the bank is in difficulties. He leaped from a window at the Cittadina club, falling to the ground from a height of four stories. Death had evidently been instantaneous.

A run on the bank began at once and the true situation is not yet known, but Salomini has been in a troubled state of mind for some time past and is known to have been embarrassed by the prevailing financial crisis.

TILDEN'S WILL.

New York, Oct. 29.—The Sun says that although the court of appeals decided yesterday that the trust clause of the Tilden will cannot stand in law, an agreement has been made with Mrs. Hazard, a grand niece of Gov. Tilden by which the executors will have $2,000,000 to carry out Mr. Tilden's purpose.

HAPPY MARRIAGE.

Waterville, Oct. 29.—Mr. Jacob Christman, of Bryan, and Miss Fontaine Carroll, of Wood county, were united in marriage October 22. The ceremony was performed by the Rev. Adams, of Perrysburg.

ENTERTAINED HIS GUEST.

Berlin, Oct. 29.—Emperor William gave a grand banquet in honor of his royal guest, the king of Roumania. The toasts pledged were of the most cordial character. Subsequently the emperor and his distinguished visitor witnessed a magnesium torchlight parade from the balcony of the palace.

LIVES LOST IN JAPAN

By a Vigorous Shaking of the Earth.

Three Hundred People Reported Killed.

Telegraph Wires All Down and Only the Most Meagre Information Can Be Obtained of the Disaster.

London, Oct. 29.—Dispatches from Japan announce that telegraph wires beyond Hioga and Osaka were down. It was added that there had been an earthquake at Hioga, and the rumor was current that a great amount of property had been destroyed, and that the loss of life had been considerable.

Hioga is a seaport town of Japan, on the island of Hondo, and is situated about 22 miles by rail from Osaka. Hioga is a fine harbor at the head of the gulf of Osaka and is adjacent to Kobe. It is lighted with gas and has a number of fine public buildings, including a town hall, a custom house and government machine shops. The seaport referred to has an extensive foreign and coastwise trade and a population in 1884 of about 40,000 souls.

Osaka is also on the island of Hondo and on the sea, 37 miles southwest of Kisto, to which place, as well as to Hioga and Kobe, railways have been built. Osaka has a large foreign trade, arsenals, a great castle, machine shops, a city hall, a mint, a college and an academy, and is traversed by canals, over which are more than 1,100 bridges, some of them of iron. This city has many theaters and other places of amusement, and it has also 1,900 places of worship. In point of size it is the third or fourth city in Japan, but in social affairs, fashion, commerce and industry it takes the first rank. Osaka has five newspapers, hundreds of schools and a population, according to the census of 1884, of about 350,000.

A private telegram dated Hioga, received in this city, confirms the report conveyed in former telegrams that a disastrous earthquake shock was experienced at Osaka, and that the destruction both of life and property, was very great.

So severe was the shock that a number of houses were thrown to the ground and many of the occupants were caught in the falling buildings and crushed to death.

A large number of persons succeeded in escaping from their tottering homes only to meet death in the streets, to which they had fled for safety from the falling debris. There is no means at present of estimating the total loss of life; in fact the details of the catastrophe are very meager, as all the telegraph wires are broken in the districts affected by the falling of the poles, which were thrown down by the seismic disturbance.

The above mentioned private dispatch, however, states that it is known that in Osaka alone the death list contains the names of 300 residents of that city.

A WANING CAUSE.

McKinleyism in Bad Shape in Fulton.

Extra Efforts Put Forth by the Republicans to Hold the Boys in Line Until After Election.

Fayette, O., Oct. 29.—(Special)—It is presumed that McKinley was ordered to come to Fulton county to help brace up the waning fortunes of Rorick and Ely. Rorick's goose is cooked already, and as for Ely, if he is elected it will be no honor to him, his majority will be so small. These men, Ely and Rorick, are both farmers. Rorick farms all over the county. He is interested in farms and farmers. He owns farms and will probably own more of them if the mortgages are not paid when due. He looks well after titles of property. His business is well managed. He is thrifty.

Ely is a genuine farmer. No humbug about his farming. He raises a good many sheep. He is a wool grower. I don't know whether he has sold his this year's clip or not, but I would venture to say that the McKinley bill did not quite meet his expectations. But he wants to go to the legislature, oh, so bad! Anything else, O Lord, but don't let me get left this time. I have waited long and patiently, and am growing old.

CLOSED BY THE SHERIFF.

Dayton, O., Oct. 29.—(Special)—Late last evening the sheriff closed the clothing store of Isaac Stern on four cognivit notes taken before the common pleas judge here. One is for $2,000 in favor of the Third National bank; Adelaide Stern, $2,068; N. H. Stern, $2,767; Judge McNerny, $150. Total, $6,985. This will cause Isaac Stern to assign. Assets and liabilities, $10,000.

LOST HIS HAND.

Upper Sandusky, O., Oct. 29.—(Special) —While Bertie Kiplinger, 9 years old, was cutting feed with a patent feed cutter at his home near Sulphur Springs, he accidentally got his left hand fastened between the top cylinder and the wood frame and the sharp knives chopped his hand into pieces. Most of it had to be amputated.

AFTER THE THIEVES.

St. Marys, Oct. 29.—The trustees of the Catholic church at Minster, this county, which was robbed Monday night, to-day offered a reward of $150 for the capture of the thieves. Detective Bourquin, of this city, is working on the case.

IT'S LIFE OR DEATH

Fierce Battles Waged All Along the Line.

The Political Situation as Viewed in Washington.

Everything Points to a Democratic Victory.

Leading Republicans Give Up the Ship in Ohio.

McKinley Has Been No Match for Campbell on the Stump—Flower's Campaign—Boss Quay at the Helm in Pennsylvania.

Washington, Oct. 29.—The news received here from the state campaigns now going on is, on the whole, favorable to the democrats. It seems to be reasonably certain that Flower and his colleagues will carry New York; that Russell will be re-elected in Massachusetts; that Boies will carry Iowa, and that the debatable ground is narrowed to Ohio and Pennsylvania.

In the Keystone state Boss Quay has taken active hold of the helm in Philadelphia. A few days ago he notified the bosses of the Quaker city that they must put up 30,000 majority in Philadelphia in order to elect the republican ticket in the state. Quay is fighting for life or death. If he elects his ticket this time by a good, sturdy majority it will, to a certain extent, rehabilitate him in Pennsylvania politics, but if he is beaten or even if his ticket is elected by a meagre majority, it will be construed to mean a verdict of the people of Pennsylvania, twice repeated, against the methods of Quay & Co. in politics.

In Massachusetts the democrats are making the gamest fight that was ever made in New England. The state has been aglow with oratory and torchlight processions for the past month. Impartial speculators here from New England think that Gov. Russell will be re-elected, and the prestige of republicanism broken in Massachusetts for all time.

There is only one fear entertained concerning New York. It is the fear that Hill will knife the democratic ticket. Everybody is asking, "Is Hill going to play fair?" or "Can Hill afford to have Flower elected?" This is a remarkable commentary upon the reputation of the political marlpot who is now at the head of the state government of New York. The republicans are hoping that Hill will prove treacherous to his party; the democrats are fearing that he will be treacherous. It may be asked why Hill should prove treacherous to his party in this emergency. The answer is simple. Hill wants to demonstrate that he is the only man who can carry New York, and in that way attempt to enhance his own power and prestige. It is astonishing to democrats hereabouts that a man like Hill should be tolerated so long by his party and placed in a position where he could be of injury whenever he feels so disposed.

Imagine the democrats of Missouri, for instance, being afraid that George Vest would knife his party ticket, or the democrats of Texas being fearful that Richard Coke was carrying a knife in his sleeve for his party, or the democrats of Illinois being nervous lest John M. Palmer should insert some secret poison into his followers that would kill the chances of his party in a popular contest.

Yet this is the position of Hill at the present time. Nearly every democrat in New York is afraid of him and every democrat in New York is free in declaring that if Hill acts squarely Flower's majority will not be less than 25,000. It seems, according to all accounts, to have angered Hill much that Mr. Cleveland should make speeches and take an active interest in the success of his party ticket. Hill seems to be afraid that a democratic victory in New York would be in part credited to Mr. Cleveland and is anxious to have it noised abroad that he is the sole proprietor of the democratic party in the Empire state himself. There is no doubt, however, that the democrats of New York are keeping a very close watch on Mr. Hill's operations, and if Flower and the democratic state ticket is defeated, Hill will hear something drop.

The interest in the Ohio campaign is, perhaps, taking it all in all, greater than in any of the others at the present time. It is the universal opinion that Campbell is making a canvass of extraordinary ability, vim and tact.

McKinley, as a campaigner, has been a surprise to his followers, because they expected that he would do much better than he has done up to this time.

McKinley, however, is not a debater. Everybody who served with him in congress or watched his course while here is aware of that. He can make a good set speech, couched in telling phrases and high sounding generalities, but he cannot debate, and he cannot defend his utterances and ideas when they are punctured by sharp criticism.

The reports that have come to this city from Cincinnati are to the effect that the expected democratic disaffection in that city has dwindled down to practically nothing. A well-informed republican, fresh from Ohio, who is a strong partisan of both McKinley and Sherman, said to your correspondent that it would not astonish him a bit, while hoping to the contrary, if Campbell should be elected by from 10,000 to 20,000 majority and the democrats should control the next legislature.

Every democrat who comes here from Ohio seems cheerful, while the republicans, in the main, are despondent, and bent evidently, upon building up plausible theories to account for possible defeat. Clarkson has given up the fight in Iowa unless, as he says himself, an earthquake or something of that kind should occur on election day. Indeed, Clarkson not only concedes the election of Boies, but also a democratic majority in both branches of the next legislature.

Of course allowances ought always to be made for the emergencies of politics, and there is no man or set of men who can calculate to a nicety in advance the result of a state election, but old political mathematicians in Washington of both parties, who have been figuring upon public sentiment and pre-election indications for a quarter of a century, are very much inclined to believe at this time that the democrats will sweep all the states in which there is a contest being made at next week's election.

BREAKS IN THE RANKS.

New York, Oct. 29.—Connor and Richardson, of the New York club, have been offered good inducements to sign to play with the Athletics next season. They are dissatisfied with the salary the home team has been paying them, and may jump to the association.

Brouthers and Joyce, of the Boston association team, have accepted an offer from the Brooklyn league team. There is hardly a doubt but that they will play with Brooklyn next season.

ONLY HALF TOLD.

Terrible Tales of Suffering in Russia.

Misery and Degradation on All Sides.

Return of Dr. Kemster from Abroad.

What the Gentleman Saw on His Journey.

A Religious War Being Waged on the People—Residents Forced to Sell Their Property and Leave the Country on Account of the Persecutions.

New York, Oct. 29—Dr. Walter Kemster, one of the five special Federal emigration commissioners who have been abroad for some months investigating European emigration, returned upon the Majestic yesterday.

"The public will have to wait until our report is submitted to congress," he said to a reporter who met him, "but that report will startle the civilized world and will be a theme of discussion in every pulpit in the land.

"I do wish to speak, however, in regard to the Russian persecutions. The reports published in this country do not half tell the misery and degradation which exists and which I saw while in Russia.

"There are no degrees in the misery of the people, city or country; it is all the same. The condition of the poorer classes is as absolutely hopeless as it can be.

"I journeyed from St. Petersburg to Moscow and thence down through the center of the Polish settlements toward Odessa. The sights we saw were terrible. The persecution, however, is not confined to the Hebrews. We hear more of them on account of their superior numerical importance, but in reality it is a religious war.

"Near Odessa there are German settlements of Lutherans and Catholics that have been there for over a hundred years. These people are selling their property at a sacrifice and are emigrating, mostly to the Argentine Republic.

"No ukase has been directed against them, but they have been subjected to a series of petty persecutions and they are taking the hint.

"I am quite sure that we were shadowed by Russian agents. We traveled with special passports and experienced little difficulty from the Russian officials, though we did find it advisable and in fact necessary at times to 'grease the wheels' of Russian machinery.

"The other members of the commission, Messrs. Cross and Powderly, are in London, while Mr. Shulteis is still lost somewhere in the European jungle. I think he will be back before long, however.

WOULD NOT ENTHUSE.

McKinley's Meeting in Republican Fulton.

Republicans Disappointed Over the Outlook.

Honest John Ryan Was Among the People and Hoed His Own Row of Corn—Flattering Prospects.

Wauseon, O., Oct. 29.—(Special)—The republicans of this place suffered a disappointment yesterday that it will take a long time to forget, while the democrats are correspondingly jubilant. Great efforts were made by the McKinley club and county central committee to make this a red letter day in Fulton county politics. Every inducement was offered to draw the people and the leading republicans counted upon at least 10,000 people being present to greet McKinley, providing the weather proved good.

McKinley has come and gone, and although the weather was favorable in the extreme, the expected 10,000 dwindled to not over 3,000, a large portion of whom were women and children.

Mr. McKinley arrived here at 11:10, and was escorted immediately to the Eager house by numerous bands and a few marching clubs.

After dinner a short reception was held at the hotel, when Mr. McKinley was driven to the Northwestern Ohio fair grounds.

His audience is estimated at from 2,000 to 3,000, who showed very little enthusiasm, with the exception of one old granger who agreed with everything that was said and let the major know it by clapping his hands and hollering "that's right," "that's so," etc., as if he belonged in the amen corner.

The major, in stating the benefits rendered by his bill, said "that if his bill had not been passed wool would have sold for 11 cents (exactly 11) less than it did this summer." The major was encouraged by the old granger's "that's so" and continued by saying they had made cheap sugar by taking off the tariff.

Encouraged from the amen corner by the never-failing "that's so," and that they had made tin cheaper by adding 100 per cent. to the already extreme tariff, the "old granger" here reached the climax and startled the major and a portion of the audience by exclaiming "that's so; and your bill made my geese lay eggs in September." The old man was as near the truth in his statement as was the major in many of his, and was just as honest.

Wauseon was never decorated more lavishly or with better taste. Democrats as well as republicans did everything in their power to show strangers that Wauseon could show respect to men of national reputation, regardless of politics. And the good people of our little burg succeeded far beyond their expectations.

There were six staff correspondents here representing various newspapers, who have been with the major since he opened his campaign, and they agreed that Wauseon was more generally and better decorated than any place they had yet visited, a compliment that Wauseonites feel proud of.

Everything pointed to an immense assemblage of the faithful—weather good, bands engaged from every town, all of the faithful requested to be present by extensive advertising and personal solicitation, schools dismissed, etc., etc.

But in point of numbers it was a complete failure in solid republican Fulton.

The was not a traction engine, there was not a marching club, the procession would have passed any point in less than ten minutes, while the lack of banners, floats and enthusiasm was particularly noticeable.

Dan Grubb's hay tedder, with boots on and a banner inscribed "Against Free Trade We Kick," which has been used at every republican meeting, was a feature that would have been a great addition, and was very much missed.

Hon. John Ryan was present and put in some good work for himself. There are many republicans openly advocating Honest John's election, and as surely as the sun rises November 4 J. C. Rorick will find that his majority of 1,000, which he claims in Fulton, will be cut squarely in two.

The Blade in its report of the McKinley meeting, calls W. W. Touvelle of this place "Capt.," while he was no nearer the war than J. C. Rorick, whom the Blade at the time of his nomination claimed to have been a soldier.

The old soldiers will all remember that plain, hanest John Ryan was a soldier, and a good one in every sense of the word, and that he is also a farmer.

POLITICAL EQUALITY

Club Formed in Bowling Green by Toledo Ladies.

Bowling Green, O., Oct. 29.—(Special)—Those who say that the subject of equal rights for women has little interest for women would have thought that they were in a sad minority Tuesday in this city of Bowling Green. The W. C. T. U. hall was well filled in the afternoon with an earnest and enthusiastic audience comprised of the representative women of the city.

Mrs. E. S. Fray, of Toledo, the district vice president, called the meeting to order, and the plan of work proposed by the state association was discussed and the ladies decided by a rising vote to form themselves into a Political Equality club. The following officers were elected: President, Mrs. Josephine Wood; vice president, Mrs. Leete; corresponding secretary, Mrs. Sands; recording secretary Mrs. Jennie Cramer; treasurer, Mrs. Horne.

In the evening the ladies assembled at the Disciples church to attend a Demorest contest, and during the evening Mrs. C. Q. Murphy, also of Toledo, gave a short talk on the subject of suffrage. This was followed by a very entertaining and instructive talk on Social Purity, by Miss Jeanette Olmsted, the state superintendent of that work in the W. C. T. U.

Permanent Headquarters Secured—Class in Physical Culture to be Organized.

The Young Woman's Christian association have decided to rent the large hall and adjoining rooms over Hudson's store, on the corner of Adams and Summit streets, and they will be furnished for their use. One room will be fitted up as a gymnasium and a class in physical culture will be organized about the middle of November. This class will be free for three months, and those desiring to join are requested to send their names to Mrs. J. M. Mixer, 217 Twelfth street. Mr. C. T. A. Meek has been engaged as instructor for this class, and will have a lady assistant.

THE THEATER.

Miss Gale Scores a Success as Rosalind.

"Renah" a Trump at the People's "Dark Secret" Next Week—Concert at Whitney's—Shenandoah.

After the splendid performance of Miss Julia Marlowe it was a very critical audience that greeted Miss Minna Gale at the Wheeler opera house last evening. The lady, however, was not at all a stranger to Toledo people, and those who had seen her with Booth and Barrett expected much. They were not disappointed, for, as Rosalind, in Shakespeare's charming comedy of "As You Like It," she appeared to good advantage, and even showed considerable improvement over her previous excellent performances here. Miss Gale is a handsome woman of exceptional grace, and those who saw her last night were of the opinion that she deserves all the praise that has been bestowed upon her during her present tour as a star. Her support was very strong and Creston Clarke as leading man, proved an able support for Miss Gale's talents.

A Dark Secret.

A Dark Secret, one of the most realistic melodramas on the stage, will be presented at the People's next week for the first time in the city. The Philadelphia Mercury speaks of its production in that city as follows:

"When the curtain at the National theater rose last evening the house was jammed with an enthusiastic audience, which throughout the five acts of A Dark Secret expressed its approbation of play and players by frequent and vociferous applause.

"While the play has frequently been seen in Philadelphia, its mounting last evening at the National surpassed any previous presentation here. An experienced engineer and the stage hands have been busy during the past week in preparing the great tank for the presentation of the Henley regatta, and the result was an aquatic spectacle which has never been equaled upon any stage.

"The company at the National is composed of excellent material, which gives a very enjoyable and well-finished presentation.

Shenandoah Coming.

In his great production, Shenandoah, which is coming here November 6 and 7 at Wheeler's, Bronson Howard has successfully solved the problem of writing a play with the great civil war as a plot. He has avoided wounding the feelings of either the blue or the gray, and yet he tells a story of powerful interest. All the world admires a brave man. Each side has a hero in this drama, which is rich in sentiment, pathos and human feeling. It is intensely exciting, without the improbable situations so common in most of the modern plays. A union soldier and a confederate soldier are the principal characters. Both are actuated by the highest sense of honor and the loftiest patriotism. Shenandoah is devoid of the prejudice and passion of the fratricidal strife. It is an inspiration, and its success has been no greater than the merits of the production deserve. Everybody should see it.

The following program will be rendered at Whitney & Currier's hall next Friday evening:

Liszt—Fantaisie Hongroise, I. Piano—W. C. E. Seeboeck; II. Piano—Miss Rose Clouse.

Notes.

Annie E. Fay will give a religious illustrated lecture on Spiritualism at Wheeler opera house next Sunday night, November 1.

Renah, the Gypsy's Daughter, was presented at the People's last evening by Ullie Akerstrom and company, and the big audience present was well pleased. The character of Renah gives Miss Akerstrom wide scope for her versatile abilities, and she showed to the best advantage.

Prof. Wolff, of the Wheeler opera house orchestra, is a fine musician and he has a good orchestra under him, but people cannot understand why he persists in practicing his music during the evening instead of before. The music last evening was nothing more than a rehearsal and a poor one at that. Patrons of the opera house expect better music from Prof. Wolff.

MELBOURNE AT HOME.

New Castle, Pa., Oct. 29.—Frank Melbourne, the rain king, arrived home from the west to-day. He says there is no truth in the report that he sold his rain machine to a stock company. He does not intend to sell. Next year he has contracts to make rain in Kansas at 10 cents per acre. His experiments in the west, he says, were successful.

ABOUT BLAINE'S HEALTH.

Contradictory Stories Sent Out from Washington.

When He Got Off the Train He Was Very Infirm,

But as Soon as He Got Inside the House He Assumed the Condition of an Athlete Ready for a Round.

Washington, Oct. 29.—The mystery of Blaine's health seems to be more profound than ever. Those who saw him get off the train were willing to swear that his condition was pathetic, that he looked ghastly, that he had all the evidences, to speak mildly, of being a very sick man.

Yet it is stated that he met people at his house three hours later and that he seemed to be the old Blaine, cheerful, magnetic, healthy. Take the evidence of two witnesses, for instance. One man, a responsible journalist, who has been in the service for a number of years and who enjoys the confidence of every man who knows him—he went to the depot to see Mr. Blaine get off the train. He was shocked at the appearance of the secretary. He saw him just as the Bee saw him, a tottering, feeble, worn-out, sickly man. He saw him helped off the train, he saw him helped into his carriage, he saw his wife and son grasp him as he marched from the depot to the sidewalk and save him from falling. This was in the presence of several hundred people, and all testified to his condition then.

Three hours later, or after Mr. Blaine had returned to his own house from his visit to the white house another representative, also a man of integrity and truth, a gentleman who has known Blaine for several years, called at his house and sent up his card, on which was written that the press would like to have something from him, as the people would be expecting it on his return to Washington.

This reporter had no expectation of seeing Mr. Blaine in person, but thought that Mr. Blaine might send him a note or a message. To his astonishment, however, as he says, he saw Mr. Blaine come down the stairs rather briskly, walk heartily up the hall, grasp his hand and give him an old-fashioned shake. The reporter expressed surprise at the splendid appearance of the secretary, saying that he had been led to believe that he was more or less an invalid. "Pshaw," said Secretary Blaine, with a smile on his face and at the same time administering a hearty thump on his chest. "I never felt better in my life. Certainly I have not felt better for a dozen years, and do I look like a sick man?" The reporter testifies that Mr. Blaine talked with him for five minutes, that he stood up in front of the fire, spread out his legs, placed his hands behind his back, laughed and talked and seemed to be as hearty as at any time in a dozen years.

Now, what are we to make of this? No doubt the testimony of these two reporters is honest. There is no doubt that Blaine was beyond all doubt a worn-out, sickly man when he got off the train. What caused the rally in his appearance and condition during the three hours he was in Washington? Some attribute it to stimulating medicine; others simply refuse to believe it. There were over thirty correspondents of newspapers at the depot when Blaine arrived. There was not a dissenting voice among them that the secretary looked wretched, and the universal opinion was that he was out of the presidential race; that he could not attempt to make a canvass, and that no sensible party could nominate him in his then physical condition.

The eastern papers are on the whole humorous regarding the incident. Baltimore, Philadelphia and Washington papers show a remarkable divergence of opinion regarding the secretary's condition. About half the New York papers allege that he is feeble, broken down and looking ghastly; the other half, more particularly Mr. Blaine's personal organ, the Sun, declare that he is in magnificent condition, with no indication whatever of bad health. The situation is more or less remarkable, to say the least. It is evident that some of us Washington correspondents are doing some very tall lying, but how is it going to be proved?

BIG DETROIT LAUNCHED.

A Fine Warship Placed in the Water.

Must Make 16 Knots or Be Rejected.

A Handsome Bonus Offered to the Builders if She Can do More Than Eighteen Knots.

Baltimore, Oct. 29.—The steel cruiser Detroit, the largest vessel ever constructed in a Baltimore ship-yard, was lanched from the Columbian iron works at 3:40 o'clock yesterday afternoon. She slid into the water gracefully and without a hitch.

The Detroit is one of three sister ships of 2,000 tons each for which bids were accepted in November, 1889. It is a point of interest that this 2,000 ton vessel is almost identical in displacement with the two Chilian cruisers Presidente Errazuriz and Presidente Pinto, built in France, of which so much has lately been heard.

The Chilian craft are, however, rather longer and narrower, having a length of 268 feet and a breadth of 35 3-4 feet, whereas the Detroit and her mates are 257 feet on the load water line and have an extreme beam of 37, with a mean normal draught of 14 1-2 feet. The latter also are only guaranteed to make 17 knots an hour, while the Chilian vessels are 19 knot ships.

The chief interest of scientific people is centered in the outcome of the speed trials in which the new cruisers are expected by the builders to earn the handsome premium of $150,000. Congress limited the cost of these three vessels to $700,000 for a guaranteed speed of 17 knots. Certain allowances will however permit the contractor to receive an additional $100,000 on each vessel if 18 knots should be made.

A failure to reach 16 knots rejects the vessel.

The Detroit and No. 9, which will be launched in a few weeks, are what are termed twin screw coal protected cruisers. Both have a watertight deck extending the entire length of the vessel. They have an extra long forecastle and poop deck, under the ends of which are spaces alloted for working the broadside guns and torpedoe apparatus. The Detroit has what is termed an open gun deck, the poop and forecastle decks being connected by a bridge extending fore and aft. There is extended through the principal part of the vessel a center line vertical bulkhead, which not only helps to support the watertight deck, but adds great strength or, "backbone" to the vessel. It also divides the vessel into watertight compartments.

Especially interesting is the coffer dam protection along the entire machinery space, to be filled with cellulose. The Detroit will be the first in our navy to carry this water excluding belt, whose efficiency has been practically tried in several navies, and notably of late in the Danish vessel Hekla. Cellulose is manufactured from the fibres of cocoanut husks and has the property of absorbing eight times its weight of water. The French government proved by tests that ships built with a lining of cellulose would be practically unsinkable. There will be 500 cubic feet of cellulose in the coffer dams of the Detroit. Her sister ships, 9 and 11 will also be similarly fitted.

A COOKING CLASS.

It Was Formed at Walbridge Hall Last Evening.

Working girls and women to the number of fifty met at Walbridge hall last evening, upon invitation of Joan of Arc assembly, to listen to an exposition of the benefits of training in cooking at the Manual Training school, and to discuss the formation of an evening class.

Misses Marion S. Smith and Matilda G. Campbell, teachers of cooking in the Manual Training school, each read brief papers defining the difference between bad and good cooking, and explaining the methods of their school and results attained. Miss Smith stated for the trustees that any girls employed during the day could join an evening class, provided not less than 20 members were secured, that the class could meet upon Monday or Tuesday evening, and receive 16 lessons for $3, one-half the tuition to be paid in advance.

Mr. Frank J. Scott, one of the trustees of the Manual Training school, was present and upon request spoke briefly upon the value to working girls of the opportunity which the trustees were willing to put at their command if they were disposed to avail themselves of it.

Twelve of the young ladies present expressed their desire to join the class, and gave in their names to the secretary. They will make an effort to get eight more, and will meet with the teachers in the cooking room of the High school building at 8 o'clock next Tuesday evening.

It should be understood that this evening school is open to any girl who is employed through the day, upon payment of the tuition. Any one wishing to join can attend next Tuesday's meeting.

COLLECTED THE RENT.

A Peculiar Proceeding Reported From Fostoria.

Fostoria, O., Oct. 29.—Chas. Garner, a local colored preacher, has been absent from his bachelor home for about three weeks on account of sickness. He returned this morning and found that his house had been entered and all of the furniture removed except a spring bed and mattress and an old stove.

His potatoes had also been dug and removed together with a horse and an old wagon. The colored man was bereft of nearly all of his earthly possessions. The property was taken it is stated on account of some rent that was due. He intends to make it warm for those who collect rent in such a burglarous manner.

We treat every case on its own merits; and thousands to-day join in thanking us for the new lease of life and happiness our skill has opened up to them.

NYE, THE HUMORIST,

Pays Toledo a Flying Visit and Talks With a Bee.

Bucking Against Campbell and McKinley Hard Work.

His New Play, "The Cadi," a Great Success, Notwithstanding Its Lack of French Wickedness and Its Fake Watermelons.

William Nye, the famous humorist, spent a couple of hours at the Boody this forenoon, en route to Bay City, where he will entertain an audience this evening.

"Mr. Nye, I am a newspaper man—" began a Bee as he approached the mirth maker.

"That's enough," interrupted the genial Bill, and his blue eyes brightened with a welcome, as he grasped the reporter's hand warmly.

"No, I don't know a thing that would give you an item. Our tour so far has been most successful. It is hard to enter the lists with Campbell and McKinley just now in Ohio, but so far I've held my own."

"By the way, do you take any interest in politics?"

"No, not any. In fact, I haven't time. It appears, however, that the campaign in Ohio is attracting the greatest atention throughout the country. No, I don't know how it will go, but I hope you will have your desires, whatever they may be, gratified."

Thanking him for the kind wish, the Bee asked:

"Is your new play, 'The Cadi,' a success?"

"I'm at work on it all the time, and am making many changes, and, I think, improvements. It is now at the Union Square theater and will be for a month. The critics have been very kind to me, more so than I deserved, and the critics and people generally are helping me. If you could have a few, just a fraction of the suggestion that I have received in the past month, you would have reading matter for eleven families. Kind hearts and willing hands have been near me at all times. Gentle eyes looked up lovingly into mine and I have revelled, I may say, in suggestions all the time.

"I ought to be a very happy man if ideas of how not to do it and little hints and suggestions from those who have demonstrated that they can't do it, are what I am in search of.

"My play, 'The Cadi,' is and was intended to be different from any other play that was ever written. People who come to see a play written by me know better than look for 'Fedora' or 'Camille.' If they like me well enough to read me they come hoping to find that sort of thing presented them by the living and moving though caricatured author.

"The great question with me was at the start—Can the newspaper humor be made attractive as stage humor? Can Mr. Seabrooke become the man whom the public so kindly read each week and be interesting during an evening? That question was settled in thirty minutes in Mr. Seabrooke's favor and I regarded the matter as a success.

"To judge the 'Cadi' by the cast iron rules of dramatic construction is as foolish as it would be to ask the comet which comes around once in 15 years to arrange its affairs so that it could get around every 30 days.

"The story of the play is the story of a man's regular life, covering a few weeks. There did not happen to be any violent deaths in the family during that time, and so there are none in the play.

"It may be audacity. You can call it that or egotism, or idiocy, if you like, but there is humanity in Mr. Seabrooke's character, and unless the public prevaricate and misrepresent the matter, it is pleased without being shocked.

"If you ask me how I would go to work to write a real drama, a Sardou drama, with carnage into it, and such things as that, I would say get a ream of good manilla paper—unruled is the best; sharpen a dark red cedar pencil, remove the top coat, close the door, get your chair near the window with your back to the light, and ring for Mr. Sardou. That's the way I would do.

"Much criticism has been offered by the critics of this country and those of Europe also, because it is claimed that the watermelon in the third act of the 'Cadi' was not real. I know this is true, and, as soon as it was learned that the melon was not real, our colored quartet gave notice that it would quit at the end of two weeks, but we healed over this wound, at least.

"Now the critic, especially the one who hurrahs for realism, is clamoring in a most unjust and injurious manner because the melon is papier-mache. My intent at first was, of course, to have, and we did have a real melon. The manager said to me, 'What are you going to do when the watermelon season is over?' 'I have taken care of that by writing a play which will not extend beyond the watermelon season. And I thought that I had. However, it is now evident that I miscalculated, and the 'Cadi' is booked for the entire season, so we had to provide for this matter and secure an ideal melon. I am sorry about it, but that is the way it occurred.

"However, it is an American melon. It is not adapted from the French. It is not cribbed from any other author. It is our own.

"The play, of course, has its weak points, but they are less and less obvious as it goes on night after night. Over one hundred changes have been made, all of which have been beneficial. There is, however, no misery in it. It is deficient in sob effects, I know, and no illegitimate children of French extraction are introduced. We also have no leg effects, which, of course, has called out a criticism on the part of my bald and near-sighted confreres, but I said on the start that I would have a moral play or bust. We point with ill-concealed pride to the fact that the people, the great, warm-hearted, bright-eyed and beautiful American people, in whose hands rest the destiny of plays as well as peace and prosperity within our walls, have cheered our humble efforts.

"Any time you want to get some more valuable hints regarding playwriting drop in at my hotel and I will fill you up.

"So you see, I've had my hands full," he continued, laying down his cane, gloves and spectacles. "I've make, and if I get through with my life I'll be doing well. No, I'm not booked for Toledo. I'd like to drop down on you and get acquainted."

At noon Mr. Nye, Mr. Burbank and their manager left for Michigan.

REFUSED THE WRIT.

The Logan-Union County Case Thrown Out of the Court.

Columbus, Oct. 29.—(Special)—The supreme court made short work of the Logan-Union county judicial muddle brought to their attention in the case of the state on the relation of Duncan Dow against George W. Emerson.

The other was for a writ of mandamus to compel the joint election board of Union and Logan counties, composing the common pleas sub-division, to place Duncan Dow's name on the Australian ballot as the regular republican nominee for judge.

The court after hearing the argument decided that it should be a free-for-all contest, and refused to issue the writ. This decision virtually sustains the action of the election board in invalidating the nomination of Price and Boles, and holds this action on the part of such boards to be valid.

The two republicans, Dow and Price, and the democrat, Mr. Boles, will be placed on the ticket as independent candidates, despite the effort of Mr. Dow to create a monopoly on the nomination of a political party for common pleas judge.

TWO SOCIAL PARTIES.

One at Eversman's, the Other on the East Side.

The Sylvans gave an enjoyable dancing party at Eversman's hall last evening, which was largely attended. A program of 24 numbers was observed, and but few of the company left before the "Home, Sweet Home" was concluded. Committee in charge were as follows: Reception—Wm. Otis, chief; E. J. Parks, J. J. Foy, J. J. Quirk, D. Terry, E. T. Scanlon. Floor—Wm. J. Burke, C. J. Sugrue, M. J. Tobin, J. T. Hanlon.

The first social party given by the Golden Star Serenading club was held at Weber's hall, East Toledo, last night, and was a very pleasant affair. Young and old participated in the dance. The officers and members did everything possible to make their guests feel at home. The club is composed of the following: President, H. H. Rolfes; vice-president, J. F. Blaser; secretary, E. J. Fox; treasurer, H. L. Rutschow; I. H. Drulard, H. J. Duvendack, P. Purney, E. Farrar.

RODE OUT THE GALE.

A Whaleback's Encounter with a Storm.

The Tug Cast Her Adrift and Found Her at Whitefish After the Blow Was Over.

Sault Ste. Marie, Oct. 29.—The tug Traveler has arrived with whaleback 103. The Traveler encountered heavy weather off Stannard rock Monday morning and owing to the newness of her rebuilt upper works she made water through the bulwarks that could not be freed through the giving out of her bilge pump.

She was forced to let go of the barge forty miles above Whitefish point and jettison sixty tons of pig iron. On arriving at Whitefish there was several feet of water in the fire hold. The 103 and schooner Neelon rode out the storm at anchor above Whitefish.

The steambarge Marshall, from Washburn for Chicago with lumber, reports having lost her mainsail and 250,000 feet of lumber off Copper Harbor. She succeeded in reaching Bay De Grise and arrived here this noon. Her bulwarks are badly damaged.

The schooner Sligo will clear in tow of the tug Merrick for Buffalo to-morrow. She is leaking through collision with the Sovereign at the time of taking off the steamer's crew.

ANOTHER REPUBLICAN LIE.

Sutton Is Working Hard for Ryan—Ottawa Will Give An Increased Democratic Majority.

Louis G. Richardson returned from Ottawa yesterday and in speaking with a Bee this morning said:

"The statement in the Blade and other republican papers that Sutton is working against Ryan is untrue. I saw Mr. Sutton, and he is not only not working against Mr. Ryan but he is working hard for the election of the entire democratic ticket."

"What figure will the people's party ticket cut in Ottawa?"

"It will not hurt the democratic ticket a particle. I was afraid from what I had heard that it would, but an investigation proved to me that Ottawa will pile up the customary democratic majority."

BETTING ON CAMPBELL.

A New Yorker Sends $5,000 To a Toledo Friend For That Purpose.

This morning the Agent of a well-known railroad line informed a Bee that he had been instructed to put up $5,000 on the election of Campbell.

"Take odds if you can get them; if not, bet even."

A week ago local republicans were giving odds on pluralities, to-day you can find few who are willing to bet even.

The average sporting man does not bet on sentiments. He wagers to win and he generally gets there.

There has never been a campaign where there has been less betting. The republicans are not making their usual bluffs this trip.

KILLED HIS OWN SON.

A Father's Fatal Shot in a Saloon Row.

The Boy Wanted to Force the Aged Gentleman to Take a Drink Against His Wish.

Springfield, Mo., Oct. 29.—News has reached here from Seymour, Webster county, that a fatal fight occurred near Hartville, in which Sol Johnson shot his son "Bill."

"Bill" Johnson, said to have been a noted young desperado of that section, was in a saloon when his father came in. "Bill" attempted to make his father take a drink.

A fight ensued in which the son knocked the father down several times with a beer bottle.

The father at last drew a revolver and shot his son five times in the breast, killing him almost instantly. The father had not yet been arrested.

TOLEDO HONORED.

Judge Howe Appointed on the Staff of Commander-in-Chief Palmer.

This morning Judge H. E. Howe of this city received official notice that he had been appointed on the staff of Gen. John Palmer, commander-in-chief of the G. A. R. The honor is well bestowed and is a deserved compliment to a gallant old soldier.

Judge Howe was mustering officer on the staff of Major Stephenson, the founder of the G. A. R. in 1866, and the same year was senior aide-de-camp on the staff of Gen. B. F. Potts, commander of the department of Ohio, and recently was an aid on the staff of Capt. P. H. Dowling, commander of this department.

The judge is an uncompromising democrat, and he votes as he fought—for liberty. In 1862 it was for human freedom he fought. He fights to-day for commercial liberty. All honor to the gallant old warrior.

DEATH ON THE RIVER.

The Steamer Oliver Bierne a Total Wreck.

Twelve Persons Lost Their Lives and Many More Barely Reached Land in Safety.

Vicksburg, Oct. 29.—The handsome steamer Oliver Bierne burned to the water's edge this morning near Milliken's Landing, twelve miles below here.

The steamer Oliver Beirne was a handsome passenger boat and was built at Jeffersonville, Ind., four years ago. She has been used in the excursion traffic on the Mississippi river for the past two summers and during the winter season has plied between local points at the lower end of the river.

The boat was valued at $50,000, and was owned by the Planters' and Merchants' Packet company, of New Orleans. She was fully insured.

The Oliver Beirne left this city Wednesday, October 21, with a crew of 150 deck hands and carried 15 cabin passengers.

The local agent of the company received a telegram this morning that the steamer caught fire and was totally destroyed at Milliken's Landing, 12 miles below Vicksburg, at 3:30 this morning. Twelve persons lost their lives, but whether deck hands or passengers the telegram did not state. Many narrow escapes are reported.

METHODIST BISHOPS.

A World's Meeting in Cincinnati This Week.

Much Work for the Learned Gentlemen to do Before the Close of the Session.

Cincinnati, Oct. 29.—An event to Methodists throughout the world will be the semi-annual meeting of the bishops of that denomination in this city during the next five days.

All the bishops in the world, of the Methodist church, save three, will be here. Bishop Thoburn, who is in India; Bishop Taylor, who is in West Africa, and Bishop John Vincent, of Buffalo, president of the Chautauqua assembly, and chairman of the committee on international Sunday school lessons, who is in Europe, trying to regain his health, being the only dignitaries who will be absent.

The session opened this morning at 10 o'clock in the Trinity M. E. church on Ninth street.

The chairman was Bishop Thomas Bowman, of St. Louis, the senior bishop, and Bishop Anderson, of New York, was secretary. The sessions will be strictly secret, none other than the bishops being admitted.

The first business that will occupy the attention of the bishops will be to review the works of the church throughout the world during the past six months.

This includes all the regular church work in the United States as well as the missions in foreign lands. It involves the consideration of a great many knotty questions of administration and problems of special importance.

After the review of the work is finished the matter of assigning the different bishops to conferences and fixing the time of same, is to be taken up.

Next week the bishops will attend the meeting of the church extension society at Columbus, and on the following week they will be present at the general missionary meeting at Cleveland, O.

MCDERMOTT ELECTED.

Dublin, Oct. 29.—Patrick McDermott, the McCarthyite candidate, has been elected to the seat in the house of commons for North Kilkenny, made vacant by the recent death of Sir John Pope Hennessy. Mr. McDermott, who accepted the nomination after it had been declined by Mr. Davitt, was elected without opposition.

ARGUMENT IN IRELAND.

Cork, Oct. 29.—All night long half druken partisans reeled about the streets individually and in groups.

From time to time two gangs meeting on a corner would dispute and then an appeal would be made to the ever ready blackthorn or to a convenient boulder.

TO REDUCE HOLIDAYS.

Rome, Oct. 29.—Signor Rudini is said to have in course of preparation a bill to reduce the number of holidays in Italy. The ground of the proposed reform is that the large number of holidays has a tendency to engross the attention of the people and obstruct industrial development.

COMMITTED SUICIDE.

Philadelphia, Oct. 29.—Professor H. Y. Lauderbach, principal of the Boys' academy, which bears his name, at Twelfth and Chestnut streets, committed suicide in one of the rooms at the school this morning by shooting himself in the head with a revolver. CUSTAR NOTES.

Custar, Oct. 29.—(Special)—A meeting at Long's hall of the democracy of Mittan township received instructions in the Australian system of voting. A good report may be expected from this part of Wood county.

Not a person went from Custar to Perrysburg to hear the great financier, John Sherman. What is the matter with the star republicans of Ohio? They cannot draw as of old.

Rev. W. L. Van Voorhis, of Martinsburg, O., is the guest of O. H. Jones this week.

COFFEE TAKES A DROP.

It Goes Down Half a Cent To-day—Reduced Five Cents in Three Months.

Coffee took quite a drop to-day. Advices to the Woolson Spice company this morning from Brazil state that prices went down half a cent to-day.

"This is quite a drop," said Mr. Brigham, of the Woolson company, to a Bee. "It is the natural result of a very heavy crop, and we expect it to go still lower. The product of coffee in Brazil this year is 8,000,000 bags, as compared with 4,500,000 last year. The price has gone down about five cents in three months. Of course the natural law of supply and demand regulates the price of coffee as well as of all other commodities."

Big Four Election—Office Created—Pennsylvania Earnings—Other News of Local and General Interest.

The C., H. & D. road is being thoroughly inspected by the officials of the road, between Cincinnati and Toledo.

The following officers make up the party:

J. B. Porter, engineer maintenance of way; A. Galloway, superintendent of the C., H. & I. division; F. A. Husted, superintendent of D. & M. division; H. N. W. Anderson, engineer of maintenance of way of C., D. & I.; J. L. Orbison, superintendent of telegraphs.

The party was made up in this city and left yesterday morning. The object of the trip is to locate any weak spots in the line that necessary repairs may be made before winter.

Trouble Ahead.

There is trouble ahead in the freight department of the Central Traffic association.

The Grand Trunk instructed its Chicago soliciting agents to offer free cartage to and from warehouses. The road has also begun to absorb switching charges. Chairman Shaw of the Chicago committee interviewed Traffic Manager Manager Reeve in the matter. Mr. Reeve, it is said, admitted the switching charge absorption and of the free cartage charge said: "I don't know what our agents are doing in this matter, and what is more, I don't care. I have authorized the managers of our freight-lines to meet openly whatever practices they have discovered that our competitors have been doing secretly."

It is probable that other lines will offer the same inducement, and no telling where the difficulty will end.

A New Office.

The office of assistant general superintendent has been created in the directory of the Lake Erie & Western. George C. Jarvis was appointed yesterday to fill the office, to go into effect November 1.—Mr. Jarvis has been in the employ of the Pennsylvania company, Mexican Central and Baltimore & Ohio roads in various capacities in the past 15 years.

Stockholders' Meeting.

Cincinnati, Oct. 29.—The annual meeting of the stockholders of the Big Four system was held here yesterday. President Ingalls' report was approved without a dissenting vote. The operating expenses for 1890 were 66.85 per cent. of the gross earnings, against 64.59 for the year preceding. In commenting on the increase shown President Ingalls says it is due to advancement in scale of wages of engineers, firemen, trainmen and switchmen.

The election for five directors to serve for three years resulted in the selection of Cornelius Vanderbilt, Wm. K. Vanderbilt, Chauncey M. Depew and J. P. Morgan of New York, and M. E. Ingalls of Cincinnati, the present incumbents. The directors will meet in a few days to organize. The present officers will be re-elected.

A Good Showing.

Philadelphia, Oct. 29.—Statement of the business of all lines of the Pennsylvania Railroad company: All lines east of Pittsburg and Erie for September, 1891, as compared with the same month in 1890, shows an increase in gross earnings of $379,218, an increase of expenses, $360,213; an increase in net earnings of $19,005.

All lines west of Pittsburg and Erie an increase in gross earnings of $77,305, a decrease in expenses of $18,471; an increase in net earnings of $27,166.

Cinders.

To-day is pay-day on the Wheeling.

The Lake Shore has ordered 35 new engines.

The B. and O. is preparing to build a $30,000 depot at Cleveland.

W. A. Mills, general freight agent of the Hocking Valley, is in the city to-day.

The Wheeling & Lake Erie recently ordered a dividend of 1 1-2 per cent. on preferred stock.

A number of Ann Arbor engines have been borrowed by the Hocking Valley to help out in an emergency.

Hudson Fitch, general freight agent of the T. & O. C., was in Columbus yesterday attending central traffic committee meetings.

When a passenger agent don't pick up the latest and popular events that are on the go and turn them to account, there is something wrong.

O. P. McCarty, of the B. & O. S., is out with a pamphlet, "How to Vote," instructing the people how they can check (X) themselves "straight" through to eastern points by his line.

The tie committee of the Central Traffic association was in session in Columbus yesterday. The meeting was called to consider rates in effect next year for Ohio river points.

William Chase, a machinist in the employ of the Pennsylvania railroad company, has invented a locomotive steam-pop muffler, which the company is seriously disposed to adopt.

The Brotherhood of Railway Trainmen are contemplating removing the headquarters of the organization from Galesburg, Ill., to some more centrally located city. Columbus is making an effort to procure the plum.

RESULT OF A STEAL.

Pittsburg, Oct. 29.—A bill has been in court asking for the appointment of a receiver for the Dexter Spring company of this city. The bill alleges that the company is insolvent through the defalcation of the president, Theodore Doerflinger, and that in 30 days the indebtedness will be $45,000. Doerflinger fled from Pittsburg to escape arrest for embezzlement of school funds, but was arrested at Omaha yesterday. The capital stock of the Dexter Spring company is $100,000.

St. Paul, Minn., Oct. 29.—A serious railroad accident occurred this morning at Taopi, Minn., which is a little over a hundred miles from South St. Paul.

The Kansas City and the Milwaukee roads cross at this point. The Kansas City passenger train No. 1, from Chicago, due at St. Paul at 730, started up and just as it was at the crossing a Milwaukee freight train collided with the Kansas City engine.

Engineer Chambers of the Milwaukee road, who resides at Austin, was killed.

A tramp who was stealing a ride under the forward end of the Kansas City baggage car was also killed.

Fireman Lynch of the Kansas City engine was fatally injured.

Fireman Thorson of the Milwaukee train was seriously injured.

NATIONAL ENCAMPMENT.

A Convention of Militiamen for Chicago in '92.

Chicago, Oct. 29.—At a session of the convention of militiamen it was decided to hold a national encampment at Chicago during the world's fair and the camp be located within a radius of 20 miles from the exposition grounds. On motion of Gen. Snowden, of Pennsylvania, and after great discussion, August 5 to 20, 1893, was adopted as the date of the great encampment.

The matter of transportation was finally decided by the adoption of a resolution to the effect that the adjutant general of each state be appointed a committee of one for his state to act with Chairman Croner to arrange for all matters of transportation. It was decided that each member of the convention be authorized to exert all honorable means to secure the passage by congress of suitable legislation and appropriations to hold the encampment. Only regular army soldiers and regularly enlisted National Guards will be allowed to participate in the encampment.

ACCEPT HIM AS CHRIST.

The Economites Indorse the Doctrines of Teed, the Koreshean.

Pittsburg, Pa., Oct. 29.—The Celibate Society of Economites, whose wealth has been estimated at $150,000,000, have indorsed the doctrine of Dr. Cyrus R. Teed, who came here from the west to interest the members in the new sect of Koresheans, of which Teed is the head.

It was decided by the board to support Dr. Teed in whatever way they could. The announcement of the proposed change was made to the Economites in church. Teed claims to be a second Messiah and that he is immortal. In an interview concerning his plans he said:

"I will in the near future establish a store in Pittsburg on my system of equable commerce. I will establish a big central house in Chicago, and expect my co-operative system to come into general vogue in 10 years. I did not come here for their money; I want their moral support and credit. Through their influence I expect to bring closer to me the other five celibate societies in this country."

WANT A RECEIVER.

HOW TO VOTE.

All persons who are opposed to McKinley and high taxes should vote just this way: Put an X at the left of the words "Democratic Ticket," thus:

X | DEMOCRATIC TICKET.

Vote early and vote the ticket in the rooster column. Put your X mark at the left of the words "Democratic Ticket." Use a black lead pencil or ink.

Ohio voters are so much engrossed with their own election that the campaign in other states is lost sight of. It will cheer democrats to learn that their brethren in Iowa expect to carry that state and that New York is regarded as absolutely safe for Flower. Russell is confident of re-election as governor of Massachusetts and there is a good fighting chance in Pennsylvania. Now, if Ohio will keep in line the victory will be complete. "Keep step to the music of the Union" next Tuesday. Vote for Campbell and lower taxes.

Mr. McKinley says that strikes are evidences of prosperity. A dispatch from Pittsburg yesterday told of a striking miner, who walked from Connellsville with his family, too emaciated from hunger and hardship to go any farther. When a father cuts his own hand that his child may drink the blood to keep it from starvation, is that a sign of prosperity? And this one miner tells a pitiful tale of those he left behind him in their poor empty huts. And yet republican orators will walk into the very shadow of this human woe and suffering and proclaim that strikes are signs of prosperity, because a high tax aids and incites them.

A most unfortunate thing "at such a time as this," in Ohio, is that described in the Bee's dispatch from Bellefontaine yesterday. The maple sugar bounty is not forthcoming and the price of tin cans has been advanced; all because of the McKinley law. And again, wool is declining in price, the number of sheep is decreasing and buyers and wearers are getting a plentiful amount of shoddy in their "all-wool" goods. And farmers trace it to the effect of the McKinley law because they were promised that this law would give them better prices for wool and would not increase the price of woolen goods and of tin.

"Let the office seek the man" is good business political wisdom. Upon this principle the democrats of Lucas county acted in regard to a candidate for treasurer. The office was not sought. The man was found who accepted against his own inclination and who is a candidate in the sense of performing a duty to the people of the county. Mr. Jacob Mandler is a business man of prominence and uprightness. That he would be a model treasurer all know, and his election would redound to the credit of the taxpayers. While Mr. Mandler is making no effort to be elected, yet his name is a strength to the democratic ticket and he ought to receive a large vote.

Gov. Campbell made the best point of the campaign in his speech at Athens on Tuesday. Said he: "If it were true, as the republicans say, that tariff reform will reduce wages, do you think the manufacturers of Pennsylvania would send money to Ohio to defeat me at the polls? Rather would they send money to help me." There is everything in that question for the people to consider. The protected barons pay as little wages now as they can, and it is not at all reasonable to suppose they would oppose Campbell if they thought the policy he advocates would reduce wages. They are not built that way. They are selfish, grasping and unscrupulous, and they are helping McKinley, who has done so much for them.

In his Memorial hall speech Tuesday evening Major McKinley said that the present tariff had not increased prices. In a leading dry goods store on Summit street yesterday afternoon a clerk explained a difference of $5 in price between two dress patterns of equal quality by saying the cheaper pattern was of domestic manufacture and the other was imported. Major McKinley's statement was quoted to him, and his reply was that he heard Major McKinley say that and that he felt inclined then and there to stand up and say "That is a lie, and every man in the United States who has bought anything or sold anything under the present tariff knows it is a lie." The Bee gives this statement wider publicity and is ready to substantiate it. Platform platitudes no longer mislead people. The pocket-book test tells the story. The tariff is a tax. The foreigner does not pay it. It is paid over the counter of the retail stores by men and women who are not benefited by it; who are robbed by it.

The first year the Australian ballot system was used in Indiana 20,000 ballots were thrown out because they were improperly marked. Ohio voters should be careful next Tuesday. You must make an X mark at the left of the ticket you desire to vote. If you put the mark at the left of the name of the ticket it will be a straight vote. The democratic column is the second from the left on the ticket. Do not make a mistake. Put your X in the space at the left of the words "Democratic Ticket."

M'KINLEY'S MENDACITY.

Major McKinley said in Memorial hall that prices had not been raised by his tariff monstrosity. Here are prices furnished the Chicago Times by a wholesale merchant of that city. Somebody lies. Who it is let the buyers of gloves, cloths, underwear, glassware, etc., answer.

Gloves cost at retail from 25 to 50 cents a pair now more than they did before the McKinley law was enacted.

Common lace curtains that cost 37 1-2 cents a pair now cost 45 cents. Those that cost $2 now cost $2.40.

Plush garments that cost $20 now cost $25.

Pearl buttons have advanced from $9 to $14 a gross. Shirt buttons are $1.17 a dozen instead of 75 cents.

Common woolen astrakhan cloth costs $4.50 instead of $3.50 a yard.

Silk-plush garments have advanced from $9 to $13; woolen hosiery from 37 to 50 cents a pair.

The rates of duty on certain kinds of cloth, including kersey, corduroy cloth and French cloaking, have advanced 30 per cent., while the prices have advanced from 32 4-10 to 44 4-10 per cent.

Underwear has advanced from 10 to 25 per cent. Blankets have advanced 8 1-2 per cent., and manufacturers refuse to accept orders for future delivery. Neckties have gone up from 33 1-3 to 50 per cent. English waterproof cloths that cost $1.75 per yard now cost $2.25.

Glassware has gone up from 6 to 20 per cent., and crockery from 5 to 12. The price of common foreign window glass has advanced nearly 39 per cent.; of ground glass, 104 4-10 per cent.; of common American window glass from 17 1-2 to 33 per cent.

VOTE EARLY.

The new system of voting will necessarily be slow. It is estimated that not more than thirty or forty persons can vote in an hour. It will readily be understood that if many persons wait until a late hour in the day some may not have the opportunity to cast their ballots. Indeed, it is the boast of the republican committee that they intend organizing a crowd in each precinct to block the voting the last hour, hoping thereby to prevent many democrats from exercising the right of suffrage. The way to prevent this scheme is to vote early. Do not take any chances. Go to the polls in the morning, if possible, and perform the duty of an American sovereign. Vote. Vote for your own interests. Vote as you please, but be sure and vote.

AFRO-AMERICANS.

An Alleged Rally at Myers' Hall Last Night.

A Slim Attendance and the Effort to Frighten the Colored Voters Into Voting the Republican Ticket Proves a Failure.

A curious meeting was held in Meyers' hall last evening under the name of an Afro-American Republican Rally. If the colored voters don't rally any better at the polls next Tuesday than they did at the meeting last night, the hope of the republican party is gone.

The rally was very much like a session of M. Quad's "Cotton Blossom Club," and that writer would have found in it much food for a very funny story.

The music for the meeting was furnished by Johnny Livermore's Salvation Drum Corps, who pounded their poor defenseless instruments in a most heartless manner for nearly an hour before the business of the meeting was opened. The effects of their earnest efforts were to nearly deafen everybody in the hall, and to make several big cracks in the plaster.

When the drum corps was tired out, Mr. George Fields called the meeting to order, and at that time there were in the hall 15 colored men, 25 colored women and about 15 white men, most of whom had dropped in to get out of the cold, and of the colored men over half were democrats.

After the chairman had called the meeting to order, he introduced Hon. D. Augustus Straker, of Detroit. It was announced that this gentleman would talk on the tariff, but his speech was rather in the nature of one of Geo. W. Cable's plantation stories. He made an effort to frighten his hearers with a Cobden club bugaboo, and stated that if the democrats elected a president the country would practically be governed by England, and devastation and ruin would result. He forgot to state that in this same England the colored race is treated with much more deference and respect than in the United States, and that over there no one thinks of the negro except as on equal terms with his white brethren.

After the Hon. Augustus had become winded, William M. A Vena made a short republican address and endeavored to smooth over the effects of the previous tirade. Yet he also forgot something, and that was to tell his hearers of the treatment he had received at the hands of the republican postmaster and other government officials, and how he did not get that job in the postoffice where he would be obliged to work six months before being accepted and placed on the payroll in time to be fired by the incoming democratic president.

Thus it was that the whole meeting was worked on scare-crow principles, and instead of arguments being set forth an effort was made to drive the colored voters into line.

The effort, however, can hardly be called a success.

SENATOR JOHN RYAN.

A Man of the People and Should Have a Big Majority.

Capt. John Ryan, renominated on the democratic ticket for state senator, was a soldier in the union army, is a member of the G. A. R., friendly and liberal to everybody, trusted and esteemed by republicans and all classes, is against class legislation and in favor of every third or labor party reform principle. Capt. Ryan spends day after day and hundreds of dollars getting evidence for pensions for comrades. While he himself was disabled in the service and has been an invalid ever since the war, from disabilities, he never made application to the department for a pension. He took his greenbacks for pay when in service. His property in farms and stone quarries has been earned by honest toil and diligence in business. He pays taxes to keep up interest on untaxable bonds that must be paid in gold, two or three dollars for each greenback dollar the government and soldiers got from those gentlemen who never stopped a bullet and who are yet as manufacturers doubling and increasing their millions and billions by this indirect tariff taxation. He will help do away with this slavery by modifying this and equalizing unequal business, redeeming the bonds and taxing the rich man's money or put him in competition so that he will invest in taxable property.

Senator Ryan has proven himself an officer who will not only protect the just interests of those who have the wealth, but he will legislate so that those who are yet poor and homeless can escape the unjust burdens that deprive them of homes and the necessaries of life.

A NEIGHBOR.

Significant Honor.

The republicans are doing Gov. Campbell the honor to direct a good many of their big guns against him, but up to date he seems amply able to take care of himself. He has made McKinley look quite insignificant.—St. Louis Republic.

Found—the Man.

Just one man has been found in Ohio by Gov. Campbell who is getting higher wages by reason of the McKinley bill. His name is Jackson. He was thrown out of his job as a laborer at $1.25 a day by a strike, and has since found employment at $20 a week as a Pinkerton guard.—Boston Globe.

CANNON AND FIREWORKS

To Be Let Loose Once More by the Reps. To-Night.

The Local Committee Has Lots of Money Evidently—Notes Concerning the Battle Next Tuesday.

It is evident to even the most casual observer that the local republican campaign committee is not short of funds, and it is not to be supposed for a moment that the sinews of war have been supplied entirely through the patriotism of Toledo republicans. The public may judge where the money comes from.

The McKinley blowout cost heavily, some placing the figures at $5,000. A special train for two or three hundred people, booming cannon, brass bands, fireworks, hall rent, carriages, etc., would put a hole in this amount, if it did not entirely destroy it.

Well, there is to be a repetition of the business again this evening, though it will hardly be as swell as was Tuesday evening's blowout.

A special committee left at 1 o'clock for Bellevue, where the Honorable Thomas Brackett Reed of Maine, ex-speaker of the last congress, and general hoodoo to the republican party, speaks this afternoon. A brass band accompanies the party to assist in keeping up the spirits of the local statesmen and to acquaint Mr. Reed of the magnitude of the Future Great, whose interests he always opposed when the appropriations on the harbor bill were considered. In fact, there are those in Toledo who think it required considerable gall to send such an enemy to our straight channel and other river improvements to the city. But then the managers of the republican party are not particularly careful as to the consistency of things.

Mr. Reed will arrive at 6:25 and will be escorted to the Boody. At 8 o'clock the ex-speaker will rehash the stock arguments for protection at Memorial hall.

There will be a democratic rally in East Toledo Saturday night, to be addressed by Hon. John W. Canary, Byron Ritchie and R. F. Booth.

Interest of the republican local managers in the laboring man will cease after next Monday night. Respectfully referred for verification to the Central Labor union committee who have been laboring so assiduously for the past two months.

Judge Grayson Mills, of Sandusky, was in the city yesterday. Lucas county democrats should see that the Judge's interests are not lost sight of next Tuesday. He is deserving of cordial support.

The way for democrats to offset the republican scheme to ogle them out of their votes next Tuesday is for each one to see that his ticket is in the box early in the morning. Democrats are always willing to accord what they ask, fair play.

There will be no more stone road scandals after Foster Warren succeeds Englehardt. Make a note of this fact

It is dollars to cents that Thomas B. Reed will not tell Toledoans about the manner in which he shelved the harbor bill, a measure the city was so greatly interested in.

Griffin has stirred up a hornet's nest among the grain dealers, for which he will suffer dearly next Tuesday. And the whole republican ticket with him.

Every democrat should see that his neighbor votes as early as possible. This is a sure way to prevent republican trickery.

The outrageous scheme concocted by the republicans, as exposed in yesterday's Bee, caused considerable of a sensation. It is proposed that 40 republican voters will be held ready to capture the various polling booths and occupy them in the various precincts between 5 and 6 o'clock on the afternoon of election day, and thereby debar many democratic workingmen from voting. The scheme won't work. It behoves every democrat to be on the alert. The democratic executive committee has no band. The tariff robbers of Pennsylvania have not sent any of their money to the democratic executive committee of Lucas county. Every democrat should constitute himself a committee of one to see that his neighbor votes his ticket. Workingmen who are obliged to get to business at 7 o'clock will have an hour before that time for voting. That is the hour in which an effort should be made to cast your vote.

"A strike is a blessing for the laborer."—Foraker at Memorial hall.

"Mortgages are titles of nobility. A mortgage is a sign of nobility."—McKinley at Memorial hall.

A long pull, a strong pull and a pull altogether and the democratic ticket is elected in Lucas county from top to bottom.

A week ago the republicans were betting two to one on McKinley. Now the tune is changed and they want odds.

Stuart is too far gone for resurrection. His appeals for help come too late.

Englehardt's record should snow him under by 2,500 votes, and it will. Jake is in it along with Stuart.

McKinley says he has not promised Squire the railroad commissionership. Of course he will say so. But if McKinley is elected Squire will name the man who will fill the office, and don't you forget it.

The Central Labor union quintette of hustlers are right in it, but they have undertaken a contract they cannot carry out when they propose delivering the vote of organized labor in Toledo to the republican party next Tuesday.

The condition of affairs at the county infirmary make a change of administration an absolute necessity. A vote for Van Wormer is all that is needed to work the reform.

See that you vote early next Tuesday morning and see to it that your democratic neighbor votes. There is more at stake in this contest than in any campaign since the war. The democratic voter who fails to perform his duty as a citizen this time has no claim on any rights to which a good citizen is entitled.

"Thugs, bums and tramps" is what the evening republican organs of the city call the railroad men. The men thus insulted will have an opportunity on election day of giving the libel the lie. The railroad men of Toledo are as good citizens as are to be found within the limits of the state, or of the country.

The registrations show a clear gain for the democrats in every precinct. It is now the duty of every democrat to see that every democratic vote is polled.

COURTS COULD NOT DECIDE

The Case According to Burke's Way of Thinking.

Beaten Twice in a Suit at Law He Wounds the Defendant and Then Kills Himself.

Los Angeles, Cal., Oct. 29.—G. J. Griffith, a prominent capitalist and owner of the Los Felix ranch, was shot near the Catholic cemetery last evening by a man named Burke, who almost immediately committed suicide by shooting himself through the head, dying instantly.

Griffith is painfully but not dangerously wounded and will recover. In speaking of the cause of the shooting Mr. Griffith said that some time ago Burke sued him for $15,000 damages, alleging that he had slandered him. The case went against Burke.

It was appealed to the supreme court and again decided in Mr. Griffith's favor. Papers found on Burke's person indicate that the deed was premeditated.

TOLEDO BAPTIST UNION.

Successful Meeting Last Evening at the Second Baptist Church.

The Toledo Baptist Union met at the Second Baptist church, East Side, last evening, and there was a good attendance of Baptists from all the churches of that denomination in the city. After the opening exercises President Alexander made a brief address, dwelling chiefly upon the objects of the union and the good to come from these union meetings, where members of the Baptist churches can meet and become acquainted and keep up the church and denominational spirit.

Rev. E. W. Hunt, of the Ashland Avenue Baptist church, made a ten-minute address on "What Can the Union Do in Promoting the Efficiency of Our Churches?" He urged that the different Baptist churches should give united support to the union, and thus by standing shoulder to shoulder all will be enabled to accomplish better work.

A general discussion of some length ensued, with this address as a basis, and many good points for better church work were brought out.

Rev. Wm. Sheridan followed with a short address on "Can Either the Union or Our Churches Do More in the Establishment of City Missions?" He had numerous good suggestions for city mission work, and more were brought out in the discussion that followed.

This closed the business of the meeting, and a social hour followed that was much enjoyed by those present.

DEMOCRATIC RALLY

Announced for East Toledo on Saturday Night.

Arrangements have been made for a closing rally with the democrats of East Toledo on Saturday night, and it promises to be successful.

Hon. John W. Canary, of Bowling Green, one of the candidates for state senator, will be present, as will also Mr. Byron Ritchie and Mr. R. F. Booth, the latter on the ticket for representative.

As this will be the last opportunity to listen to a discussion of the issues of the campaign, the democrats of the East Side propose to make the meeting a boomer.

CHESS CONTEST.

New York, Oct. 29.—Negotiations between Max Judd, of St. Louis, and S. Lipschutz, of this city, for the proposed triangular chess match between these players and J. Showalter, of Georgetown, Ky., have just been concluded. Play will begin the first week in December.

POLITICS TO THE EAST.

Splendid Outlook for Democratic Success.

Stewart Making a Grand Fight for the Senatorship.

Mills a Very Strong Man Who Will Come Up to Lucas County with Fully Twenty-One Hundred Majority.

Oak Harbor, O., Oct. 29.—(Special)—Two large and enthusiastic democratic meetings were held in this county yesterday, an afternoon meeting at Williston, and an evening meeing at Rocky Ridge.

H. L. Stewart, candidate for senator, was the principal speaker. Hon. C. I. York, Mr. Deel and Mr. Christhardt, the latter speaking in German, also delivered short addresses.

A concentrated effort is being made to defeat Judge Mills in this district, and republicans are making the wildest claims. They pretend to believe that they will carry Lucas county by 2,800 majority, Huron by 1,800, will cut down Mills' majority in Erie and Ottawa counties to an even thing, and reduce the democratic majority in Sandusky county to 600.

These figures excite ridicule by their absurdity.

In Erie county Mills will lead his ticket. In Huron county he will pull up to it, and as the republican majority is falling off at the rate of over a hundred a year, Kelley cannot count on over 700 at the most liberal estimate, 740 being the republican majority last year. Sandusky county will give at least 800, and in Ottawa, an organized republican opposition to Kelley will enable Mills to hold his own in his opponent's own home, insuring him over 1,400 majority.

This will enable him to come to Lucas county with 2,100 majority, and will insure his election by over 1,000 majority. Mills is developing latent strength that has surprised his friends, while Kelley has disappointed his ardent supporters by his weakness.

The county seat fight has settled down to the contest over the election for commissioner, but it is probable that the new ballot will save the bacon of Dressler, who will be cut by the east end. Baker, for representative, will be cut some, but will be elected. There will be a remarkably large vote brought out by this contest, and Ottawa will give the largest majority in years.

It now looks as though Stewart, for senator, would lead his ticket here by over a hundred, as he is very strong in all parts of the county, and the fight against him has been given up.

The democratic majority has increased in this district from 1,200 and 1,400 on the first and second terms of Zimmerman, 1,700 for Soncrant and Brady two years ago, to 2,200 for Roth and Douglass last year, and bets are made that Stewart's majority will be the largest ever given in this district.

WALES IS GROWING OLD,

And the Fact Bothers Him Very Much.

Preparations Being Made to Celebrate His Fiftieth Birthday in Grand Style in London.

London, Oct. 29.—The fiftieth birthday of the Prince of Wales falls on Nov. 9, and preparations are being made to have it royally celebrated. The corporation of the city of London are taking steps to ascertain what the prince would like to do on the occasion, and whether he would be satisfied with an address in a gold box, or some more substantial donation.

Orders have already been issued to give the army and navy something out of the usual line, and the grenadiers at Windsor will probably have a dinner they can eat for that day at east.

The prince is said to be hesitating as to whether he shall court publicity on the occasion, and his personal friends whisper that he is not at all proud of his age, especially in view of the fact that his mother's health is particularly good, and her chances of life are at least equal to those of Mr. Gladstone, when he was her age.

The Americans at the Mercy of Their Enemies.

A Practical Boycott Placed on the Warship Which Egan Had Used as a Spy in the Interest of Balmaceda.

Santiago, Chili, Oct. 29.—The Chilian government has replied to Minister Egan's demand for an explanation of the recent attack upon American sailors.

The reply is couched in very strong language, and it is understood that it amounts to a refusal to accept responsibility for the affair.

The state department at Washington has been notified. Minister Egan, Commander Schley and Consul McCreery are consulting together, and it is thought that decisive action will be taken soon. The state department's orders in reference to the matter are very strong.

The intendente of Valparaiso has refused to guarantee the safety of market boats coming to the city early in the morning from the United States war ship Baltimore, or the safety of officers of that vessel coming ashore at night. There is a practical boycott on the Baltimore. No American sailors are allowed ashore.

Great excitement has been caused here by the report that the Chilian legation in Washington had been attacked.

TAKE ONE YOURSELF.

Here's a Fellow Who Struck Billy Patterson.

There is a good story going the rounds on Billy Patterson. The other day a seedy individual wandered into his place and called out a glass of beer. The foaming fluid was set out and disposed of by the stranger, who laid down a round piece of bright tin. Billy picked it up, and discovering the deficiency, called to the fellow who was making for the door.

"Here, stranger, this is tin."

"Excuse me, I thought it was five; take something yourself," was the reply, as the speaker vanished.

RIFLES AT THE MEETING.

Bloody Ending to a Southern Alliance Meeting.

Three Men Killed and Several Others Filled Full of Bullets—To Arrest the Disturbers.

Little Rock, Ark., Oct. 29.—News reached here last night of a terrible encounter at Buckport, 20 miles from Eldorado, Union county, at a Farmers' alliance meeting.

State Lecturer Bryan, of the alliance, was the principal speaker of the evening. Shortly after he had concluded his speech a quarrel took place among the spectators, which was soon taken up by many others in the audience.

Winchester rifles, shotguns and pistols were used with deadly effect.

Burt Manning, J. H. Teenan and three others whose names could not be learned, were killed, and several slightly wounded.

Sheriff Goodwin, of Union county, left Eldorado to-day for the scene of the trouble. Politics was the sole cause of the row.

In vain the eyes are filled with light;
In vain the cheek with beauty glows,
Unless the teeth are pure and white,
Unless the breath is like the rose;
And SOZODONT alone supplies
These beauties that we all so prize.

LOCAL LABOR NEWS.

Furniture Workers Elect Officers—Working Girls' Union Joins the Joan of Arcs.

Joan of Arc assembly, K. of L., has decided to take in the Working Girls' union, heretofore a separate and distinct organization. At the meeting of Joan of Arc assembly last evening, it was decided to receive the members of the union at the next meeting. The idea is an excellent one, for in union there is strength.

At the meeting of the Furniture Workers' union last evening, the following officers were elected: President, A. Rupe; vice president, Otto Haverstock; delegates to the Central Labor union, Frank Roner and Martin Lutenberger.

The Machinists' union at its meeting lat evening perfected arrangements for the grand ball to be given at Pythian Castle November 12.

The Brewers' union is making a red-hot fight against the importation of outside beer. Local labor organizations are taking up the fight, and the end is not yet.

The labor organizations of Toledo have no fight with the natural gas trustees, reports to the contrary notwithstanding. If the city has gas, then the rolling mill should be supplied; if not—that should settle it.

Party of Prohibition, Piety and Gammon.

The "non-partisan" branch of the Woman's Christian Temperance union, that is to say, the section of that organization which is just partisan enough to be for the republican party to a woman, may find some trouble in swallowing—metaphorically—Mr. Carnegie's gift of a cask of Scotch whisky to the president. All Iowa will wait to hear from Mrs. J. Ellen Foster on the subject just at this moment when the voters of that state are asked to vote for the republican nominee for governor, because that is the party of prohibition, piety—and gammon. —Chicago Times.

The Reed Hoodoo.

The Reed hoodoo is to be put on McKinley this week. Last fall's experience shows that each of Reed's speeches is worth about a thousand votes to the democrats.—St. Louis Republic.

Cause and Effect.

But for Pat Egan, nitrate jobbery and political "standing-in" from Washington to Santiago, there would be no peace and good will to-day between the United States and the liberty-loving people of Chili. Through Egan our government was placed in sympathetic relationship with Dictator Balmaceda. For this our unarmed sailors are stabbed and killed by mobs in Valparaiso. Call Egan home and put a stop to this misunderstanding. —New York Advertiser.

LIFE.

The world was made when a man was born;
He must taste for himself the forbidden springs,
He can never take warning from old fashioned things;
He must fight as a boy, he must drink as a youth,
He must kiss, he must love, he must swear to the truth
Of the friend of his soul, he must laugh to scorn
The hint of deceit in a woman's eyes
That are clear as the wells of Paradise.
And so he goes on, till the world grows old,
Till his tongue has grown cautious, his heart has grown cold,
Till the smile leaves his mouth and the ring leaves his laugh,
And he shirks the bright headache you ask him to quaff;
He grows formal with men and with women polite,
And distrustful of both when they're out of his sight;
Then he eats for his palate and drinks for his head,
And loves for his pleasure—and 'tis time he was dead!

Under a microscopical examination no evidence of the oily globules in coffee berries could be found. Most of these spurious inventions come from Germany and the Americans are by no means slow to learn.

The king and queen of Denmark will visit England the latter part of November for a stay of three weeks. They will be the guests of their daughter, the princess of Wales, and of her majesty at Windsor. How many recollections of past days will this visit bring to Christian of Denmark when he remembers the time he aspired for the hand of England's young queen, and was rejected owing to his too jubilant demonstrations from excessive partaking of wine at a state banquet given in honor of the then beautiful Victoria?

A careful investigator of the subject has figured out the following interesting "expense account" which is declared to be "below the actual figures, if anything." "The cost of raising an ordinary boy for the first 20 years of his life is here given: Per year for the first five years, all expenses, $100, or $500 in all; $150 per year for the next five years; $200 per year for the third five; $300 per year for the next three years, and $500 for the next two, or a total of $4,150 outlay by the time the boy is of age and able to hustle for himself."

Lancaster county, Pennsylvania, has a custom that prevails perhaps nowhere else in the United States. "Settling day" in that county falls upon April 1, and on that day thousands of country folks gather at Lancaster, the county seat. Bargains are made, contracts are entered into, debts are paid and new ones are contracted. If a man contracts a debt at any time during the year the understanding is, in the absence of specific agreement, that payment shall be made on settling day. A similar custom prevails in parts of China, but the Lancaster countians probably took their settling day from German ancestors.

DRUGGED WHILE AT SEA.

Another Chapter in the Malley Case.

The Father as Notorious as the Two Sons.

Marie Reinhart Tells a Strange Story of How Her Name Was Obtained to a Legal Document in the Case.

New Haven, Conn., Oct. 29.—Another strange chapter in the celebrated breach of promise case of Mrs. Marie Reinhart against Edward Malley, the rich ex-dry goods merchant of this city, has developed.

Malley is the father of the Malley boys who were implicated with Blanche Douglass in the death of Jennie Cramer at Savin Rock some years ago. He is now about 65 years of age. Mrs. Reinhart began an action last July in the superior court, claiming that Malley had employed her as a governess for his child by his second wife two years previously; that he engaged to marry her within a reasonable time, and that about a year ago she gave birth to a male child, of which Malley was the father. He kept putting her off. She finally came to this city and employed Attorney Charle S. Hamilton. She claimed damages of $25,000. John W. Allyng, and James H. Webb, of this city, were the attorneys for Malley.

A few weeks later it was announced that Mrs. Reinhart had accepted $2,000 or thereabouts in full liquidation of her claims against Malley.

Mr. Hamilton did not see his client for some time, but one day he recived what purported to be a notice of withdrawal, dated August 15, and signed by Mrs. Reinhart. The paper was made in Boston before Wm. A. McCloud, a justice of the peace. It was as follows:

Marie Reinhart vs. Edward Malley.—To Edward Anketell, clerk of the superior court: I hereby withdraw the above entitled case and request you to discontinue the same upon the docket of said court. MARIE REINHART.

Mr. Hamilton did not have much confidence in the matter and evidently thought he would have to look around for his fees. But he was not greatly surprised when his client called on him a week ago and told him a strange story of fraud.

Allyng and Webb, Malley's attorneys, made a motion yesterday to erase the case from the docket. To their surprise Mr. Hamilton was ready with reasons why it should remain on the docket. He produced an affidavit made by Mrs. Reinhart, which induced Judge Thayer of the superior court to keep it on. Mr. Hamilton says that the case will soon be tried and will be one of the most celebrated cases since Malley's son, Walter, and Blanch Douglass were tried before Judge Granger in the superior court in 1882, for the murder of Jennie Cramer.

Mrs. Reinhart's story, as briefly told, is to the effect that she was frequently visited by the agents and servants of Edward Malley to sign a withdrawal from the suit.

They offered her small sums and when she refused they told her that she had no case and that they would ruin her if she persisted in going ahead.

In many different ways they worked on her hopes and fears so that she was harrassed beyond measure. Finally, she says, having no friends or relatives to advise her, and her counsel being away from New Haven, she was induced, about August 13, to go on board a steamer in New York and go to New London and thence to Boston. On this trip Malley's agents plied her with liquor and she believes that they drugged her, as she has no recollection of what was done.

She admits that she signed some sort of a paper which they assured her was a mere matter of form and having no effect upon the merits of the case. This was done in Boston, and soon after, she says, she was placed on a steamer and taken to England. She knows but little about what transpired on the steamer, but when she came to herself she found that she had been deceived, and she accordingly made her way back and told her story to Mr. Hamilton. He told her that he would have the case reopened, and an argument for that purpose will be made next week before Judge Thayer. Mr. Hamilton has but little to say at present, but he promises to prove a conspiracy that will be interesting. Messrs. Allyng and Webb are also reticent, but it is said they intend to show that Mrs. Reinhart is trying to blackmail Malley. Malley refuses to say anything about the case.

THE FIGHT ON FORAKER.

It Grows Fiercer Each Hour of the Campaign.

Every Effort Will Be Made to Put Him so Deep in His Political Grave that He Will Never Get Out.

Columbus, Oct. 29.—The condition of affairs between the republicans contending for the United States senatorship is aptly illustrated by a remark of one of the Sherman men made to a correspondent to-day.

The gentleman is well known in republican circles, is in close communion with Gen. C. H. Grosvenor and other recognized anti-Foraker leaders in the state.

The United States senatorial question was under discussion between several gentlemen, when one made the remark that in his opinion Foraker would be selected to succeed John Sherman in the event of a republican majority in the next legislature.

The men separated, leaving the pronounced anti-Foraker man and the writer alone, and the question again came up. Then was the declaration against the ex-governor uttered by the well-known republican in substantially the following language: "If the democrats can make it apparent that the selection of a senator will fall upon Foraker in the event of a republican legislature, then I will say to you now that the democrats will have no trouble in securing a majority in both the state senate and the house of representatives."

In a further conversation this gentleman said that the republicans of Ohio, and especially the Shermen men, would not under any consideration submit to the election of Foraker to succeed Sherman in the United States senate, and any attempt in that direction from any considerable number of republicans prior to the election would cause the defeat of the legislative candidates in many of the close counties and senatorial districts.

The feeling against Foraker, he insisted, was as strong now as two years ago when he was defeated for governor, and the same republicans that assisted in that defeat would, sooner than permit him to occupy a seat in the senate, join hands in an effort to defeat the legislative candidates and throw the majority to the democrats.

This statement conclusively proves that the statement appearing in these dispatches a few days ago to the effect that the success of McKinley and Sherman would mean the political death of Joseph Benson Foraker was founded upon facts and literally true. The Sherman and McKinley men to-day stand in just exactly the same position that they did two years ago and would readily sacrifice the legislature if it was deemed necessary to do this in order to put Foraker in his political grave.

The Sherman men may be slow in realizing the fact, but it is nevertheless true that they are banking on support from a number of legislative candidates that they will fail to get, if the republican legislature should happen to be republican. For instance, Cuyahoga county, with its three senators and eight representatives, is included in the estimates of Sherman's strength for the senate.

The Sherman men claim that they have pledges from all the candidates, but it is a well known fact that will be demonstrated to a certainty if the opportunity affords that over half of the delegation are Foraker men.

With the knowing ones this goes, and all of the bluster and claims of the Sherman men are simply laughed at by the Foraker managers. Again Sherman is counting on a part of the Hamilton county delegation when it is equally well known that the nominees for both the senate and the house, with one exception, are pronounced Foraker men, and this exception was placed on the ticket by Foraker influence with the tacit understanding that he would wheel into line at the proper time.

With this condition of affairs staring the Sherman men in the face, it behooves them to revise their estimates and list of pledges and see if they are not in imminent danger of being most beautifully dumped in the event of the election of a republican legislature.

SECURED A WATER FRONT.

Baltimore, Oct. 29.—It is stated that the Baltimore and Ohio Railroad company has purchased the Scott Grace property near Claymont, Del., to obtain a water front and wharfage along the river. As the Philadelphia and Reading company has no charter in Delaware this will afford it an opportunity to secure a valuable commercial franchise by building the necessary connection from Linwood to the Baltimore and Ohio above Wilmington.

DESTROYED BY FIRE.

Ball Bros.' Plant at Muncie Burned.

One Hundred People Thrown Out of Work—A Narrow Escape for Some of the Employes.

Muncie, Ind., Oct. 29.—Ball Brothers' large tin stamp works, operated in connection with two glass factories, was destroyed by fire yesterday. Over one hundred employes, mostly girls, are thrown out of employment. The building was lighted by natural gas, and a leak under the ceiling accumulated gas and became ignited. Many of the girls' clothing was scorched before they could escape. The loss is about $52,000, partially insured.

Shulleworth's large boarding house, adjoining the factory, burned, but the loss is covered by insurance. Ball Brothers came here from Buffalo, N. Y., and have several times been burned out.

WORK OF AN INCENDIARY.

A Georgia Town Badly Damaged by Fire.

Newman, Ga., Oct. 29.—This city has again been visited by fire. Tuesday night T. W. Howell & Co.'s warehouse, with 1,000 bales of cotton, was destroyed. The wind was wild and for three hours the town seemed to be at the mercy of the elements.

All the stores of the west side of the square were relieved of their contents and the Newman guards were put on duty. About one hundred bales of cotton on the platform of the burning building were removed after a fierce fight. Every one that could shoulder a musket and carry water was at work.

At 5 o'clock this morning another alarm was sounded and in five minutes 500 men with buckets of water were at the warehouse of Russell, Gibson & Co., working to save it. Nearly two hundred bales of cotton were on the outside platform. By hard work the building was saved, but 50 bales of cotton were burned. The work was evidently that of an incendiary.

Wiley Argo, a desperate character, who has a grudge against the city and warehouse, was arrested just after the last fire. Argo is very reticent and positive evidence will be hard to get. If the citizens knew that he was the incendiary he would in all probability be hanged or burned before another day. It is impossible to get a correct estimate of the loss by the three fires that occurred at different places within 24 hours, but the combined loss will probably reach $200,000.

MADE AN ASSIGNMENT.

A Real Estate Firm Closes Its Office.

Suit on Notes and a Bank Account Garnisheed is What Caused the Trouble.

St. Paul, Minn., Oct. 29.—Bushnell & Bushnell, a well-known real estate firm in St. Paul, assigned to-day with liabilities that will probably reach $500,000. The assets will nearly or quite equal this sum.

The firm was known as the Standard Investment company. The following statement has been made for publication:

The immediate cause of our assignment is the commencement of two suits against the Standard Investment company, of St. Paul, as makers, and Bushnell & Bushnell as guarantors, of two notes of $5,000 each, and the garnishment in both cases of our bank accounts.

The publicity given these proceedings have so curtailed our credit in the various money centers from which we usually obtain funds, as well as in local banks, that we find it impossible to get sufficient money to pay our maturing obligations as they become due.

If these suits are allowed to proceed to trial and the parties should obtain judgment it would give them a preference or advantage over our other creditors. Believing that our assets should be equally divided, and that if they are carefully and equally distributed they will pay all liabilities and leave a surplus, we have deemed it a duty to the creditors of both concerns to make an assignment for the benefit of all creditors, to the end that all may share equally.

THE REAL ESTATE MARKET

Prospects, Present and Future, Still Bright.

Annexation of Auburndale Does Not Suit

All the Residents in the Enterprising Suburb—Arlington Lots Going—Transfers for the Week.

The growth of Toledo within the last year has simply been astounding.

This is apparent in more ways than one. There have been more houses erected since building opened up in the spring than any time for years.

The books of all prominent real estate dealers will show more business transacted this year than any previous year within the last decade.

There have been more lots sold for building purpose this year than any one year in the history of Toledo.

There has been more acre property platted and placed on the market.

There never was such a demand for houses to rent.

There never was so many houses built for rent.

There never was a time when the workingmen were making such efforts to save money and procure homes of their own.

There never was a time when Toledo had so many building and loan associations to advocate economy and help the poor man to obtain a home.

There never was a time when work was so plenty in Toledo.

There never was a time when Toledo had so many gas lines.

There never was a time when Toledo had so many manufactories, and to crown all these was a year when registration showed an increase of 2,500 voters.

This speaks volumes for the growth and progress of Toledo, an increase in the population of 2,500 voters, which means 15,000 souls, and all in a single year.

Auburndale and Annexation.

Auburndale is one of Toledo's most thrifty and growing suburbs.

Located as it is in the edge of the richest of Lucas county's agricultural districts with splendid shipping facilities and manufacturing interests employing hundreds of hands Auburndale's prosperity and growth is not to be wondered at.

When the question of annexing this wide awake community to Toledo was first agitated the people thus effected took sides in the issue either for or against it.

A Bee visited Auburndale yesterday and had a little talk with a few of the prominent citizens on this all important question, and their views may be found below:

H. F. Hastings—I am already in the city and don't own any property on the other side of the line, and of course it does not make any difference to me which way it goes. I hear a great deal of talk for and against the project, and I notice that property owners are against it and renters are indifferent, though some are fighting to go in. If I owned a farm over the line I would most certainly object to having it pulled into the city and taxed as city property. It would not benefit me or increase the value of my farm, but the taxes would eat up my profits."

M. E. Burley—"Property owners generally are opposed to annexation, for the reason as they claim that we won't get any of the improvements promised for 10 years to come, while the taxes will be levied just as regular. They are just being assessed very heavily for stone roads, which added to the city tax will make a burdensome load for a good many. If they were sure of procuring the improvements, they all say they wouldn't object to going in, but on this point there seems to be some doubt. Renters generally favor annexation."

R. G. Sampson—"I would just as soon have Auburndale annexed as not, so far as I am concerned, but I don't think it is right to pull this farm land in. A great many of these farmers have all the taxes they can stand now, with the heavy rates of taxation levied in Lucas county at present, to say nothing of the increase by city taxation. I am perfectly willing to go in myself, but it is all wrong to drag these farm lands in."

John Kellogg—"I think Auburndale should be annexed for the land owners' good and for the renters' good. It will be better all around. There are numerous reasons why we should be incorporated with Toledo, but I have in mind two reasons that I think are all important ones. First, we need fire protection, and should have it. Auburndale has never experienced a big fire and consequently does not realize the danger and necessity of a department in our midst. Before the department could make a run out here from the city, fire in a favorable locality would get beyond all control, and there is no telling what would result. Then there are our sidewalks, which, if you have walked over them, I dare say you appreciate their condition—down here, up there, and in a great many places none at all. What we want in this respect is a grade established by which our sidewalks can be constructed with some uniform appearance. This will be of great benefit to the place. People very often come out here to invest in property. Well, they drive through the place and observe the ragged, tumble-down appearance of our sidewalks and they measure the town by this view. Now, it would be far different if the sidewalks were built up right and uniform."

Postmaster Mason—"A majority of the people, especially tax payers, are opposed to the scheme. The farmers are going to fight it in every manner possible and do everything in their power to defeat it. The workingmen out here don't care one way or the other, as they are not interested. If the trouble comes to a vote, the property owners will not be in it, of course. I don't see any particular advantage of being in the city, unless there would be something gained by having city gas. It is a question then whether we would get the city gas or any of the many improvements promised."

W. J. Cowles—"I don't think it will do anybody any good. I think they just want to get us in to get the taxes. They promise all manner of improvements. Look at Auburndale—that is, over the line. How much better off are they than we? Not one bit. They are paying very dear for the honor, if honor it be, of living in the city. They haven't a single improvement that we haven't got, yet their taxes are considerable higher. I own property and shall oppose the measure. Of course, I am only one, and if Auburndale is annexed I go with it. This is my home and here I intend to live, in or out of the city. Just the same, I would rather stay out and take my chances with fire."

Arlington Improvements.

"Arlington lots are still moving," said Irving B. Hiett to a Bee. "Last week and this week we have sold about 20 lots. We expect to continue the sale to the first of next month, when we will give a lot away for every 20 lots sold, as has been the practice heretofore.

"The place is improving quite rapidly. The store building that was begun when the sale first opened has been completed and sold to Michigan parties, who will put in a nice clean stock of groceries, meats and provisions. The lots are good property. I know of a number of purchasers who could have sold out and cleared over 10 per cent. In another year they can double that."

ASLEEP FOR FOUR YEARS.

A Remarkable Case Found in Pennsylvania.

A Man Forced to Retire to His Bed from Overwork is Unable to Again Leave It.

Scranton, Pa., Oct. 29.—The case of Michael Fernan, who has been asleep for the past four years at his home near Factoryville, is a very remarkable one.

Fernan, who is about 50 years old, was born near the lakes of Killarney, Ireland, and came to this country in his boyhood. His early days were spent at Elizabeth, N. J., where he married, and worked for several years in the employ of the Delaware, Lackawanna & Western railroad.

Four years ago he moved to Factoryville where he purchased a farm and prospered. He led a sober, industrious life, and when the Delaware, Lackawanna & Western began to lay its double track he secured employment as watchman at the tunnel then being built near his home.

Fernan watched faithfully at the tunnel during the night and in the day worked diligently on his farm. He took but little sleep, and frequently went several days and nights without any.

He felt that being a strong, healthy man he did not need sleep, and so he continued to work day and night, until one evening in the fall of 1887, he was seized with a violent headache. The pain became so great that he was compelled to quit work and take to his bed.

Then he fell into a semi-stupor, and for a time appeared to be delirious. He raved considerably for several days, and failed to recognize his nearest friends. From this condition Fernan passed into a profound sleep.

After a time his family tried to arouse him, but could not. The doctors were summoned, but they were powerless to wake the sleeper, who has continued to sleep ever since. His family think he is conscious at times. Some months ago when one of the children was being reprimanded, Fernan manifested much uneasiness and muttered incoherently, and more recently, when one of his sons died, the sleeper sobbed and moaned piteously, but showed no other signs of consciousness.

About two years ago his family thought he was going to die, and they knelt at his bedside in prayer. To their amazement he suddenly revived and sat up in bed, then sank back again and resumed his deep sleep.

Although four years confined to his bed, Fernan looks as rugged as he did the first day of his strange experience. He takes food regularly twice a day. His appetite appears to be good and his sleep seems painless. His wife and children entertain the hope that some day he will shake off his fearful lethargy.

PREVENTION IS BETTER

Than cure, and those who are subject to rheumatism can prevent attacks by keeping the blood pure and free from the acid which causes the disease. For this purpose Hood's Sarsaparilla is used by thousands with great success. It is the best blood purifier.

* Constipation is caused by loss of the peristaltic action of the bowels. Hood's Pills restore this action and invigorate the liver.

THE DUPONT INCENDIARIES.

Wilmington, Del., Oct. 29.—William Gibbons, who was arrested in Philadelphia, and Eugene Burns, who was arrested here to-day, were given a hearing before Justice Hasse this morning. On the testimony of a detective and of James Moore, of this city, Gibbons was held in $5,000 bail for burning one of the Duponts' barns and an additional $5,000 for conspiracy. Burns was held in $5,000 bail for burning one of the barns.

RAPID TRANSIT.

New York, Oct. 29.—The common council met yesterday. Alderman Morgan presented a resolution approving of the recommendations made in the report, and quoting the routes set forth in the report, which have hitherto been published in full. After some discussion the board indorsed unanimously the report of the commission.

ENDED HIS TROUBLE.

Chicago, Oct. 29.—Edwin E. Marshall shot and killed himself at the Hotel Parker, 251 Clark street. The cause for the deed seems to have been unhappy relations between himself and his wife, who had been living at the hotel since October 21.

Deserving Confidence.—There is no article which so richly deserves the entire confidence of the community as Brown's Bronchial Troches. Those suffering from asthmatic and bronchial diseases, coughs and colds, should try them. Price 25 cents.

MUTINY ONCE MORE.

Grenadier Guards Are at it Again.

The Guardsmen Enter a Claim that the Food Given Them is Poor in Quantity and Quality.

London, Oct. 29.—Truth has startled military circles and the public in general by publishing the details of another mutiny in the ranks of the Grenadier guard.

According to Truth, this fresh outbreak, "while not an event of the first magnitude is still very serious." In any case it is an occurrence which all military men look upon as of a decidedly grave character, the more so in view of three previous acts of mutiny in which the Grenadiers and Coldstream guards have been implicated within about 18 months.

The present trouble appears to have arisen from repeated complaints made by the guardsmen in regard to the meagre quantity and poor quality of their rations, the men implicated being those of the Third battalion, whose nominal colonel is field marshal, the Duke of Cambridge.

The battalion is stationed at Windsor. They are the Grenadiers who, on April 21 last, while stationed at Chelsea barracks in this city, either refused to obey orders to parade, or complied in a surly and rebellious spirit.

The officers of the Third battalion of the Grenadier guards are: Lieut. Lawrence J. Oliphant, Majors and Lieut.-Cols. Horace Ricardo, Charles R. Rowley and Villiers Hatton, Major Eyre M. Stewart Crabbe, Adjutant Arthur W. Cotton.

IT MAY BE

That you prefer to pay rent for your house than to own one of your own. It may be that you have never taken the time or trouble to figure up what you pay out in rent and how quickly it would pay for a home. Perhaps you don't know how easy it is to become the proud possessor of the "dearest spot on earth." Perhaps you think you must pay all cash when you would buy a home, and if you could not afford to do that you must grovel, and sweat, and dig to lift a burden of a mortgage. These are but suggestions. It may be that you do know it is more pleasureable, profitable and comfortable to live in your own home than in some other person's. It may be that you thought about it and come to the conclusion that you do pay out a great deal of rent, and that it does not take very long to pay for a new house at the same rate. It is quite likely that you know a mortgage is perfectly healthy, and that a house with a mortgage is better than no house at all, and that a mortgage is not a burden at all, but in fact a help. Perhaps the only thing you are not positive about is where to build a home, and it is right here we are of assistance.

at 7 o'clock p. m. for the purchase of general fund refunding bonds of the city of Toledo to the amount of ninety-two thousand ($92,000) dollars, bearing date October 1, 1891, and payable ten (10) years after date at the Importers' and Traders' National bank, in the city of New York, with interest at the rate of five (5) per cent per annum, payable semi-annually at the same place, to be evidenced by coupons to be attached to said bonds.

Said bonds are issued under and by the authority of section 2701 of the revised statutes of Ohio and an ordinance of the common council of Toledo, passed September 28, A D 1891, which provides for issue of said bonds.

The denomination of these bonds $1,000.

The said bonds will be sold at not less than par and accrued interest, to the highest bidder.

Bidders will be required to state the gross amount they will pay for the Bonds besides the accrued interest to date of delivery at Toledo, Ohio. When the bids have been examined and the award made according to law, all moneys or checks deposited as guarantees shall be returned to the depositor, or held by the City Auditor subject to his call, except that of the successful bidder, which shall be held and considered and accepted as part payment of the Bonds so awarded or sold, but should there be any repudiation of the contract or agreement, or refusal to accept and pay for the Bonds so sold, then and in that case the deposit shall be forfeited to the City of Toledo, and shall become the property of said city in compensation for loss and expenses attending the sale of said bonds and as liquidated damages for repudiation of bid. And no bid will be received if not accompanied by money or check aforesaid.

The right is reserved to reject any or all bids.

Proposals should be addressed to the "Auditor of the City of Toledo, Ohio," and be indorsed "Proposals for General Fund Refunding Bonds."

The receipts of wheat at seven principal western points to-day are 1,297,974 bus., compared with 607,496 bus. on the same day last year.

Mexican Duty on Corn.—Mexican advices say there is a well founded rumor that the duty on corn will at once be removed by the Mexican government, owing to the shortness of crops and the famine prevailing in several states of the republic. The reports from the flooded districts of Chiapas are that hundreds of the people are on the verge of starvation. The state of Guanajuts, by a special decree of Gov. Gonzalez, has prohibited the export of corn from the state and other governments will soon follow his example.

New Routes South.—Within six months the probabilities are that two lines from New Orleans trading with Cuba, Mexico, Central and South America will be in operation. The reduction of the duty on flour from $5 to 90 cents per barrel in Cuba and Porto Rico, provided by the reciprocity treaty, will go into effect January 1.

As the land haul from Chicago to New Orleans is about the same as from Chicago to New York, and the water haul from New Orleans to the ports named will be about 25 cents per barrel less, the advantage of shipping via this route is apparent. Moreover, every facility will be given millers to ship direct.

Cattle and other animals on the ranges. —The following figures indicate the enumeration throughout the "range" regions of Texas, Colorado, South Dakota, Montana, Idaho, Utah, California, Arizona, New Mexico, Eastern Oregon and Washington, Wyoming and the Indian Territory, the stock of other regions, such as Kansas, Nebraska, North Dakota, Nevada, as well as of portions of some of the foregoing sections, not being considered "range" but "farm" stock, and therefore are not included:

Cattle, head	6,828,180
Sheep, head	6,676,900
Horses, head	517,120
Hogs, head	17,270
Asses, head	14,109
Mules, head	5,433

Aggregating in value nearly $100,000,000.

Sales of range stock during 1889 aggregated $22,028,712.

The receipts of wheat to-day at seven principal western points are 690,578 bus. in excess of the corresponding Thursday in 1890.

The export clearances yesterday at four Atlantic ports were 331,761 bus. of wheat and flour to an aggregate of 500,000 bus.

English markets as quoted herein are unchanged in quotations of wheat. Corn a shade higher.

Russian Prohibition.

Chicago telegraphs that a cable from Paris once more announcing that Russia has prohibited the exportation of all kinds of grain. This statement has been so frequently made and denied that dealers fight shy of it. Still the markets advanced under it, and it may be true.

The Drouth.

The unfavorable weather for the newly sown wheat is being used for all it is worth, perhaps. Undoubtedly a dry November will cut down our production of wheat next year very considerably, but it is yet an entirely speculative question, as a weather market always is. The signal service does not offer any consolation this morning.

Latest cables quote London 3 pence per quarter higher. Berlin 4 marks on wheat and 2 marks on rye higher. Paris advancing. The Berlin quotation on wheat about equals 2 1-2c bu.

The markets treat the Russian prohibition question rather tenderly and after the first half hour the effect of the proposition was lost.

In New York October wheat closed at 1-2 and December at 1-4 higher. November corn 7-8 lower. November oats 1-8 higher.

In Chicago December wheat closed 3-4c higher. October corn 1c and November 3-4c lower. November oats 3-4c higher.

In Toledo—The trading in wheat futures has been more active than for some days. Under the influence of what we have written above prices have improved over yesterday's closing. Opening sales were 5-8c higher, and later a further advance of 1c was made, but the market eased off and a part of the advance was lost. On the call November wheat sold at 97c; December, 99 1-4c, and May at $1 05 1-2. After the call December sold at 99c up to $1 00, at which there was one sale of 17,000 bus., and at once breaking off 1-8c, and to the close a gain of 1c. May sold at $1 05 to $1 06 1-4 and closed at $1 05 1-2, a gain of 1c.

Cash wheat was active, advanced 1 1-2c, and closed at a gain of 1c. No. 2 sold at 97c up to 98c, and closed at 97 1-2c. No. 3 soft at 94c to 94 1-2. No. 4 soft at 88c. Rejected No. 1 at 85c. No. 2 at 79c. No. 2 hard at 95c. No. 3 hard, 88 1-2c. No. 1 white at 95c. No. 2 at 94c.

The stock market was excessively dull again this morning. The Bank of England's advance in its rate had been generally expected and was counterbalanced by the bidding up of American stocks in London, on the basis of which the arbitrage brokers made numerous purchases. In sugar certificates and a few other stocks the shorts made an effort to cover, but the buying was small. The course of prices throughout the morning was somewhat irregular, but fluctuations for the most part were confined to fractions. Aside from the sugar trusts, St. Paul, Chicago Gas, Burlington, Atchison, Northern Pacific preferred and Cotton Oil absorbed most of the speculation. The net result of the morning's trading was to leave prices fractionally higher at noon than they closed last night. At this writing the market is dull but steady. The sales amounted to 115,000 shares.

TO DISSOLVE INJUNCTION.

A Motion to that Effect Being Heard Relative to Street Railways.

The motion to dissolve the injunction in the case of the city of Toledo against the Toledo Electric Street Railway company is on hearing before Judge Pugsley this afternoon. The injunction restrains the Robisons from constructing a second track in Nebraska avenue between Hoag and Hawley streets.

The petitioner claims that the second track is going to be laid regardless of the fact that the consent of the property owners had been obtained but for a single track.

The Robisons claim the new track is a switch and not a second track.

Mr. W. R. Woodford, superintendent of the W. & E. railroad, is the most popular superintendent in Toledo, as shown by his conduct Tuesday evening in regard to the favors and sympathy shown to George Figart, who had an injury done him while doing his duty Tuesday evening, October 27, and J. W. Riggs, G. Y. M., right hand bower had just arrived with McKinley's special when he heard of the accident to one of his favored brothers, and we all know he did all in his power to get the injured man where he could be taken care of. Mr. Danzy, foreman of the Toledo yard, was requested to go and get conveyance for Mrs. Figart and family to take her to her husband at the St. Vincent hospital, where every switchman of the W. & L. E. railroad and did everything in their power for their dear and esteemed brother swithchman, as he was the right hand bower of J. W. R., our G. Y. M.

Yours, etc., GEO. ULMER.

SOME SPICY CURRENT TOPICS

Of Local and Neighborhood Interest.

Notes and Comments on Incidents Occurring Daily—Prepared for Readers Who are Hustled for Time.

BARN BURNED.

A barn used by J. L. Cresswell, the slate roofer, on St. Clair street, was almost totally destroyed by fire this morning shortly after 8 o'clock. The department turned out and prevented the fire from spreading, and a horse was rescued from the barn. The damage will amount to several hundred dollars.

STEALING OVERCOATS THE FAD.

Look out for your overcoat as cold weather approaches, as these garments are now the favorite prey of tramps and sneak thieves. Hardly a day passes but the theft of an overcoat is reported at the police station. Yesterday was no exception and John Miller, who keeps a boarding house on market space, reports the loss of an overcoat and a pair of pants.

MRS. COLLINS' ALLOWANCE.

Probate Judge Millard heard an argument involving the allowance set aside to the widow of the late Judge Collins, by the appraisers. Counsel representing Mrs. Collins, heirs and the executors took part.

Judge Millard confirmed the award of the appraisers in the case of Mrs. Judge Collins, giving her the allowance of $5,000 for the year.

COACHES NOT NEEDED.

The republican campaign committee had arranged for three coaches to go to Bellevue this afternoon to meet ex-Speaker Reed, but it was found that the entire band and "the receivers" were able to bundle themselves into one coach, and the other two were left in the yards. Enthusiasm must be waning, or else free tickets were not dispensed as liberally as on the McKinley train.

THAT LINE CASE.

The hearing in the Frank Osborne malicious destruction of property case was concluded in police court this morning and Judge Sala took the matter under advisement before rendering a decision. A number of surveyors and real estate men were heard in the case and a large amount of deeds and abstracts were produced in court. This case will probably decide the boundary line between Bancroft street and Monroe street additions.

ANOTHER BLOCKADE.

A Forest Cemetery electric car burned out at the southeast end of the Perry street bridge about 5:30 last evening and besides creating a panic among the passengers, caused a blockade of traffic on the bridge of nearly half an hour. A blockade at this point for even a few minutes is a serious matter, and each time one occurs it emphasizes the necessity for another bridge across the creek at this point. The traffic is too great for the Perry street bridge alone.

TAKES AWAY A TOLEDO GIRL.

Last evening, at the residence of the bride's parents, on Sherman street, Miss Mollie L. White, of this city, and Mr. Frank E. McLaughton, of Culbertston, O., were united in marriage. A large party of friends were assembled to do honor to the occasion. The happy couple were the recepients of many valuable presents. After the ceremony a delicious supper was served. The bride and groom departed on the 9:00 train on the Pennsylvania railway for Culbertston, their future home.

A NECESSARY EXPLANATION.

In the Bee's account of the McKinley meeting printed last night, a well-defined picture of Chairman Tucker, of the local republican committee, appeared. The explanatory line failed, for some reason, to show up. The picture described Mr. Tucker, on his way from the Wheeling depot to the Boody with Mr. McKinley, and the expression on the face was almost sufficient to say, "Well, ain't I in it this time?" Either the expression or the stereotype smashed the line, hence the necessity of this explanation. Toledoans generally recognized the smooth-faced chairman, but there may be some who did not. The Bee always wants to do things in order.

COMPLIMENTARY TO MISS REALS.

Last evening the eleventh season of the Columbus Orpheus club was auspiciously opened with a grand concert, on the program for which were many gems. This morning's State Journal, commenting on the appearance of Miss Grace Reals, well known in Toledo, paid the following tribute, which will be gratifying to the lady's many friends:

It is almost needless to speak of Miss Grace Reals to Columbus readers. She appeared as the soprano soloist in company with two great artists, and a trying situation it was for one whose professional life has been so short. Her pure, flexible voice bore the test bravely, and when, after her rendition of Arditi's "Let Me Love Thee," the audience insisted on hearing her once more, she graciously consented, singing with exquisite expression Nevin's pathetic version of "Oh, That We Two Were Maying."

STOP THE LIE.

Some malicious persons have started the story that Dr. Van Pelt, the democratic candidate for coroner, is a member of the un-American society which proscribes Catholic citizens, the same one of which Sheriff Stuart is a member. Those who know Dr. Van Pelt need not be told the story is a lie. He is not that kind of a man. He is a constitutional American citizen in the broadest sense, and believes in the largest liberty of conscience and freedom of thought and person. As a physician he stands high; for many years he has been on the staff at St. Vincent's hospital; as a citizen there are none in Toledo more worthy than Dr. Van Pelt.

The cards have been issued announcing the marriage of Mr. John Howard Kitchen, of this city, to Miss Mabel Cordelia Lewis, of Ottawa, Ill., at the latter place, October 15. Mr. and Mrs. Kitchen have returned to the city, and will be at home Wednesdays after November 1 at 1942 Lawrence avenue.

HAMILTON COUNTY

Democrats Investing on the Proposition That Campbell will Carry It.

A well known traveling man from Cincinnati was at the Boody this morning, and drifting into politics, he said:

"Some weeks ago it was almost impossible to get a democrat to venture an opinion that Campbell would come within 15,000 of carrying Hamilton county. Things have changed, however, and the boys are now willing to put up their cash on the plucky governor. Some are giving odds that Campbell will carry the county by 5,000. Great good is also expected from the final rally next Monday evening, which is to be addressed by Governor Campbell. The republicans are liable to be fooled on Hamilton county.

A NOON BLAZE

Causes Considerable Damage to the Screen Works and Neuendorf's Feed Store.

A little after noon to-day fire was discovered in the building occupied by the Toledo screen and wire works and a feed store owned by Charles Neuendorf, on Summit street, a few doors west of Adams street.

An alarm was sent in, and the department promptly responded.

Chief Wall sized up the locality and sent in a general alarm.

The men had quit work for the noon hour, and several of them were seated about on the benches in the second floor eating their dinner. One of them glanced toward the ceiling and saw fire coming through from above to the floor below. They rushed up stairs and found the room filled with smoke.

Within a short time after the department arrived a dozen lines of hose were attached, and the fire was fought from the rear and front, and being on the interior three stories up, the flames had gained considerable headway before water arrived.

Within 20 minutes both floors fell in, after which the department confined its efforts to saving the walls and preventing the flames from spreading. After the floors fell in they were flooded with water, which gave the department control.

Had the floor held up, Powell's loss would have been comparatively light, as the fire was confined to the workshop above. As it is the stock, consisting of stoves, tinware and hardware, is badly damaged.

Mr. Powell is at a loss to account for the origin of the fire. The room where it started is called the screen room. He says there is no stove in the room or pipes extended through, neither is there any kind of fire used in the work. He says that there was one man at work in this room until 7:30 this morning, and there was no one up after that.

Mr. Powell informed a Bee that the stock, including tools and all, invoiced $4,000 last January, and that he had about $2,000 insurance.

Mr. Neuendorf stated that his stock was worth $2,500 and he had $1,300 insurance. The insurance will almost cover the loss.

The building is owned by J. E. Bailey, and is fully covered by insurance.

BUSINESS LOCALS.

AN IMPORTANT DECISION.

The jury in Judge Lemmon's room decided, by their verdict yesterday, after being out but a few minutes, in the action brought by O. W. Beaster against the Lozier & Yost Bicycle company to recover the price of a "Benster wind engine," which the defendants had taken possession of and by their neglect to properly oil had allowed it to be damaged. The speed with which the wind engine had to run to pump the quantity of water needed each day for their boiler and shop, together with the distance, it being over one-third of a mile, and labor it had to perform, made it necessary that the wind engine should have the care of ordinary machinery, and that wagon grease, with which it was oiled, was not the proper lubricant for that kind of machinery, and hence they brought in a judgment for the plaintiff for the sum of $190.50 and costs.
